## Summary Section

---

**Investment Objective.** The investment objective of the Thunderstorm Value Fund (the “Fund”) is long-term capital appreciation.

**Fees and Expenses of the Fund.** This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

---

### Shareholder Fees

*(fees paid directly from your investment)*

---

None

---

### Annual Fund Operating Expenses

*(expenses that you pay each year as a percentage of the value of your investment)*

---

Management Fees	1.00%
Other Expenses	1.78%
Total Annual Fund Operating Expenses <sup>(1)</sup>	2.78%
Fee Waiver/Expense Reimbursement	-1.30%
Total Annual Fund Operating Expenses After Fee Waiver/Expense Reimbursement <sup>(2)</sup>	1.48%

---

(1) Please note that the Total Annual Fund Operating Expenses in the table above do not correlate to the Ratio of Expenses to Average Net Assets found within the “Financial Highlights” section of this prospectus, which do not include Acquired Fund Fees and Expenses.

(2) Pursuant to an operating expense limitation agreement between the Fund’s investment adviser, Thunderstorm Mutual Funds LLC (the “Adviser”), and the Fund, the Adviser has agreed to waive its management fees and/or reimburse expenses of the Fund to ensure that Total Annual Fund Operating Expenses (exclusive of taxes, leverage, interest, brokerage commissions, extraordinary expenses and Acquired Fund Fees and Expenses) do not exceed 1.48% of the Fund’s average net assets through August 31, 2012. The operating expense limitation agreement can be terminated only by, or with the consent of, the Trust’s Board of Trustees (the “Board of Trustees”). The Adviser is permitted to be reimbursed for management fee reductions and/or expense payments made in the prior three fiscal years, subject to the limitation on the Fund’s expenses.

**Example.** This Example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

<u>One Year</u>	<u>Three Years</u>	<u>Five Years</u>	<u>Ten Years</u>
\$151	\$608	\$1,230	\$2,912

**Portfolio Turnover.** The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Fund Operating Expenses or in the Example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 92.86% of the average value of its portfolio.

---

**Principal Investment Strategies.** To achieve its investment objective the Fund invests in the common stocks of U.S. and foreign companies, selecting stocks considered by the Adviser to be undervalued. The Fund's principal valuation measures are price/earnings ratio, price/book ratio and price/sales ratio. The Adviser will purchase stocks it judges to be bargains based on one or more of these three measures.

The Fund's investments may include common stocks of companies of any size and market capitalization range. At all times, the Fund expects the majority of its assets to be invested in U.S. stocks. However, when the Adviser deems it appropriate, the Fund may invest up to 50% of its net assets in foreign securities, including American Depositary Receipts ("ADRs"), European Depositary Receipts ("EDRs") and Global Depositary Receipts ("GDRs"), which are certificates typically issued by a bank or trust company that represent one or more shares of stock of a foreign company, or a fraction of a share, and give their holders the right to obtain the securities issued by a foreign company that they represent. The Fund's allocation to foreign securities may at times include an allocation of up to 25% of the Fund's net assets to emerging markets.

The Adviser identifies stocks as candidates for investment by using an extensive screening and research process. In addition to low valuations, the Adviser seeks out stocks that display one or more of the following qualities:

- a strong balance sheet (exemplified by a low debt-to-equity ratio).
- a history of earnings growth exceeding industry norms.
- an attractive level of profitability (as measured by return on equity or return on total capital).
- stock purchases and ownership by insiders.
- a business strategy that appears to be sound and innovative.
- a "catalyst" that may change investors' opinions about a stock's prospects for the better.

The Adviser often buys stocks on bad news that it believes is real but temporary. In the Adviser's view, taking advantage of temporary dislocations in the market, and of investors' overreactions to transitory events, enhances the probability of achieving significant capital gains. The Adviser sells stocks when it believes they have become overvalued, when it judges that company or industry conditions have changed adversely, or when it finds another stock it judges to be a significantly better bargain. The Adviser may sometimes engage in active trading of the Fund's portfolio investments to achieve the Fund's investment objective.

**Principal Risks.** Remember that in addition to possibly not achieving your investment goals, you could lose money by investing in the Fund. The principal risks of investing in the Fund are:

- *Management Risk.* Risk that the Advisor's investment strategies for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.

- *General Market Risk.* Risk that the value of the Fund's shares will fluctuate based on the performance of the Fund's investments and other factors affecting the securities markets generally.
- *Equity Market Risk.* Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change.
- *Large-Cap, Mid-Cap and Small-Cap Companies Risk.* Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-cap companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion. Securities of mid-cap and small-cap companies may be more volatile and less liquid than the securities of large-cap companies.
- *Foreign Securities Risk.* Investing in foreign securities includes risks relating to political, social and economic developments abroad and differences between U.S. and foreign regulatory requirements and market practices, including fluctuations in foreign currencies.
- *Emerging Markets Risk.* Countries in emerging markets are generally more volatile and can have relatively unstable governments, social and legal systems that do not protect shareholders, economies based on only a few industries, and securities markets that trade a small number of issues.
- *High Portfolio Turnover Rate Risk.* A high portfolio turnover rate (100% or more) has the potential to result in increased brokerage transaction costs and the realization by the Fund, and distribution to shareholders, of a greater amount of capital gains than if the Fund had a low portfolio turnover rate. This may mean that you would be likely to have a higher tax liability. Distributions to shareholders of short-term capital gains are taxed as ordinary income under federal tax laws.

**Performance.** The bar chart demonstrates the risks of investing in the Fund by showing changes in the Fund's performance from year to year. The Average Annual Total Returns table also demonstrates these risks by showing how the Fund's average annual returns compare with those of a broad measure of market performance. Remember, the Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available on the Fund's website at [www.thunderstormvalue.com](http://www.thunderstormvalue.com) or by calling the Fund toll-free at 877-374-3888.

**Thunderstorm Value Fund**  
**Calendar Year Returns as of December 31**

The Fund's calendar year-to-date return as of February 28, 2011 was 1.82%. During the period shown in the bar chart, the best performance for a quarter was 19.75% (for the quarter ended June 30, 2009) and the worst performance was -20.70% (for the quarter ended December 31, 2008).

*Average Annual Total Returns*

	<b>Periods Ended December 31, 2010</b>	
	<b>One Year</b>	<b>Since Inception (12/31/2007)</b>
<b>Thunderstorm Value Fund</b>		
Return Before Taxes	19.01%	1.00%
Return After Taxes on Distributions	19.01%	0.79%
Return After Taxes on Distributions and Sale of Fund Shares	12.36%	0.79%
<b>S&amp;P 500 Index</b> (reflects no deduction for fees, expenses or taxes)	15.06%	(2.86)%

After-tax returns are calculated using the historically highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns are not relevant to investors who hold their Fund shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts.

The Return After Taxes on Distributions and Sale of Fund Shares may be higher than other return figures when a capital loss occurs upon the redemption of Fund shares and provides an assumed tax benefit that increases the return.

**Management**

**Investment Adviser.** Thunderstorm Mutual Funds LLC is the Fund's investment adviser.

**Portfolio Manager.** Mr. John R. Dorfman, President of the Adviser, has managed the Fund since its inception in 2007.

**Purchase and Sale of Fund Shares.** You may conduct transactions by mail (Thunderstorm Value Fund, c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, WI 53201-0701 (for regular mail) or 615 East Michigan Street, 3rd Floor,

Milwaukee, WI 53202 (for overnight or express mail)), or by telephone at 877-374-3888. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the financial intermediary directly. The minimum initial investment in the Fund is \$2,500. The minimum investment for subsequent investments in any type of account is \$1,000.

**Tax Information.** The Fund's distributions are taxable, and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account.

**Payments to Broker-Dealers and Other Financial Intermediaries.** If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

---

## **Investment Strategies, Related Risks and Disclosure of Portfolio Holdings**

---

### **Investment Objective**

The investment objective of the Fund is long-term capital appreciation.

### **Principal Investment Strategies**

To achieve its investment objective the Fund invests in the common stocks of U.S. and foreign companies, selecting stocks considered by the Adviser to be undervalued. Undervalued stocks are generally those that are out of favor with investors and are trading at valuations that the Adviser believes are below average in relation to the overall U.S. stock market or to a stock's own valuation history. The Fund's principal valuation measures are price/earnings ratio, price/book ratio and price/sales ratio. The Adviser will purchase stocks it judges to be bargains based on one or more of these three measures.

The Fund's investments may include common stocks of companies of any size and market capitalization range. At all times, the Fund expects the majority of its assets to be invested in U.S. stocks. However, when the Adviser deems it appropriate, the Fund may invest up to 50% of its net assets in foreign securities, including ADRs, EDRs and GDRs, which are certificates typically issued by a bank or trust company that represent one or more shares of stock of a foreign company, or a fraction of a share, and give their holders the right to obtain the securities issued by a foreign company that they represent. The allocation to foreign securities may at times include an allocation of up to 25% of the Fund's net assets to emerging markets.

The Adviser identifies stocks as candidates for investment by using an extensive screening and research process. In addition to low valuations, the Adviser seeks out stocks that display one or more of the following qualities:

- a strong balance sheet (exemplified by a low debt-to-equity ratio).
- a history of earnings growth exceeding industry norms.

- an attractive level of profitability (as measured by return on equity or return on total capital).
- stock purchases and ownership by insiders.
- a business strategy that appears to be sound and innovative.
- a “catalyst” that may change investors’ opinions about a stock’s prospects for the better.

In analyzing the prospects for a company and its stock, the Adviser takes into account sales and earnings not only for the most recent four quarters, but also for the past five to ten years. In some cases the Adviser may base its analysis on “normalized” earnings, particularly when it appears that recent results are abnormal.

The Adviser often buys stocks on bad news that it believes is real but temporary. In the Adviser’s view, taking advantage of temporary dislocations in the market, and of investors’ overreactions to transitory events, enhances the probability of achieving significant capital gains. The Adviser sells stocks when it believes they have become overvalued, when it judges that company or industry conditions have changed adversely, or when it finds another stock it judges to be a significantly better bargain.

### General Investment Policies of the Fund

*Cash or Similar Investments.* For temporary defensive purposes, the Adviser may invest up to 100% of a Fund’s total assets in high-quality, short-term debt securities and money market instruments. These short-term debt securities and money market instruments include shares of other mutual funds, commercial paper, certificates of deposit, bankers’ acceptances, U.S. Government securities and repurchase agreements. Taking a temporary defensive position may result in a Fund not achieving its investment objective. Furthermore, to the extent that a Fund invests in money market mutual funds for its cash position, there will be some duplication of expenses because the Fund would bear its pro rata portion of such money market funds’ management fees and operational expenses.

*Change in Investment Objective, Strategies and Policies.* The Fund’s investment objective may be changed by sole action of the Board of Trustees, without the approval of the Fund’s shareholders, upon 60 days’ written notice to shareholders.

### Principal Risks

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested and the amount of risk you are willing to take. **In addition to possibly not achieving your investment goals, you could lose money by investing in the Fund.** The principal risks of investing in the Fund are:

*Management Risk.* The ability of the Fund to meet its investment objective is directly related to the Adviser’s investment strategies for the Fund. The value of your investment in the Fund may vary with the effectiveness of the Adviser’s research, analysis and asset allocation among portfolio securities. If the Adviser’s investment strategies do not produce the expected results, your investment could be diminished or even lost.

*General Market Risk.* The market value of a security may move up or down, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than the price originally paid for it, or less than it was worth at an earlier time. Market risk may affect a single issuer, industry, sector of the economy or the market as a whole. U.S. and international markets have experienced significant volatility in recent years. The securities markets have experienced substantially lower valuations, reduced liquidity, price volatility, credit downgrades, increased likelihood of default and valuation difficulties, all of which may increase the risk of investing in securities held by the Fund.

*Equity Market Risk.* Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. These investor perceptions are based on various and unpredictable factors including expectations regarding: government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic and banking crises. When you hold common stock of any given issuer, you are generally exposed to greater risk than if you held preferred stocks and debt obligations of the issuer because common stockholders generally have inferior rights to receive payments from issuers in comparison with the rights of preferred stockholders, bondholders and other creditors of such issuers.

*Small-, Mid- and Large-Cap Companies Risk.* The Fund may invest in companies of any size, which include small-, mid- and large-cap companies. Although diminished in large-cap companies, the risks of investing in all companies include business failure and reliance on erroneous reports. Small- and mid-cap companies often have narrower markets and limited managerial and financial resources compared to larger, more established companies. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of the Fund's portfolio. You should expect that the value of the Fund's shares will be more volatile than a fund that invests exclusively in large-cap companies. However, larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-cap companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.

*Foreign Securities Risk.* To the extent that the Fund invests in securities of foreign companies, your investment in the Fund is subject to foreign securities risk. These include risks relating to political, social and economic developments abroad and differences between U.S. and foreign regulatory requirements and market practices. Securities that are denominated in foreign currencies are subject to the further risk that the value of the foreign currency will fall in relation to the U.S. dollar and/or will be affected by volatile currency markets or actions of U.S. and foreign governments or central banks. In addition to developed markets, the Fund may invest in up to 25% of its net assets in emerging markets, which are markets of countries in the initial stages of industrialization and that generally have low per capita income. In addition to the risks of foreign securities in general, countries in emerging markets are generally more volatile and can have relatively unstable governments, social and legal systems that do not protect shareholders, economies based on only a few industries, and securities markets that trade a small number of issues. The Fund may have up to 50% of its net assets invested directly

or indirectly in foreign securities, including up to 25% of its net assets in emerging markets.

*Emerging Markets Risk.* Securities of companies located in developing or emerging markets entail additional risks, including: less social, political and economic stability; smaller securities markets and lower trading volume, which may result in less liquidity and greater price volatility; national policies that may restrict the Fund's investment opportunities, including restrictions on investments in issuers or industries, or expropriation or confiscation of assets or property; and less developed legal structures governing private or foreign investment.

*High Portfolio Turnover Rate Risk.* High portfolio turnover rates could generate capital gains that must be distributed to shareholders as short-term capital gains taxed at ordinary income rates (currently as high as 35%) and could increase brokerage commission costs. To the extent that the Fund experiences an increase in brokerage commissions due to a higher turnover rate, the performance of the Fund could be negatively impacted by the increased expenses incurred by the Fund. Rapid portfolio turnover also exposes shareholders to a higher current realization of short-term capital gains taxed at ordinary income rates. However, while the Fund's future annual portfolio turnover rate cannot be accurately predicted, the Adviser expects it may range from 20% to 150%, with an estimated normal range of 50% to 100%.

## **Portfolio Holdings Information**

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the Fund's Statement of Additional Information ("SAI"). Disclosure of the Fund's holdings is required to be made quarterly within 60 days of the end of each fiscal quarter in the annual and semi-annual reports to Fund shareholders and in the quarterly holdings report on Form N-Q. The annual and semi-annual reports to Fund shareholders are available free of charge by contacting Thunderstorm Value Fund, c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, WI 53201-0701, by calling 877-374-3888, or on the Fund's website at [www.thunderstormvalue.com](http://www.thunderstormvalue.com). The Form N-Q is available on the SEC's website at [www.sec.gov](http://www.sec.gov).

## **Management of the Fund**

---

### **The Adviser**

The Fund has entered into an Investment Advisory Agreement ("Advisory Agreement") with Thunderstorm Mutual Funds LLC, located at 101 Federal Street, Suite 1900, Boston, MA 02110, under which the Adviser manages the Fund's investments subject to the supervision of the Board of Trustees. As of the date of this Prospectus, the Adviser did not manage any investment products or accounts other than the Fund. The Adviser is a subsidiary of Thunderstorm Capital LLC ("Thunderstorm Capital"), an investment management firm serving institutions, endowments, foundations and high net-worth individuals, with approximately \$58 million in assets under management as of December 31, 2010.

The Fund compensates the Adviser for its services at the annual rate of 1.00% of the Fund's average daily net assets, payable on a monthly basis. Subject to the general supervision of the Board of Trustees, the Adviser is responsible for managing the Fund in accordance with its investment objective and policies, making decisions with respect to, and also orders for, all purchases and sales of portfolio securities. The Adviser also maintains related records for the Fund.

*Fund Expenses.* The Fund is responsible for its own operating expenses. Pursuant to an operating expense limitation agreement between the Adviser and the Fund, the Adviser has agreed to waive its management fees and/or reimburse expenses of the Fund to ensure that the Total Annual Fund Operating Expenses (exclusive generally of any front-end or contingent deferred loads, taxes, leverage, interest, brokerage commissions, acquired fund fees and expenses, expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation) do not exceed 1.48% of the Fund's average daily net assets. Any waiver of management fees or payment of expenses made by the Adviser may be reimbursed by the Fund in subsequent years if the Adviser so requests. This reimbursement may be requested if the aggregate amount actually paid by the Fund toward operating expenses for such fiscal year (taking into account the reimbursement) does not exceed the applicable limitation on Fund expenses. The Adviser is permitted to be reimbursed for management fee reductions and/or expense payments made in the prior three fiscal years. Any such reimbursement will be reviewed by the Board of Trustees. The Fund must pay its current ordinary operating expenses before the Adviser is entitled to any reimbursement of management fees and/or expenses. This Operating Expense Limitation Agreement can be terminated only by, or with the consent of, the Board of Trustees.

A discussion regarding the basis of the approval by the Board of Trustees of the Advisory Agreement between the Trust and the Adviser, on behalf of the Fund, is included in the Fund's annual report to shareholders for the fiscal year ended November 30, 2010.

### **Portfolio Manager**

*John R. Dorfman* is chairman of Thunderstorm Capital, an investment management firm he founded in 1999. As of December 31, 2010, the firm had six employees and managed approximately \$58 million. Mr. Dorfman graduated from Princeton University in 1969 and was a financial journalist for 27 years, including 11 years as a senior special writer at The Wall Street Journal. In 1997 he made a career change to work for Dreman Value Management. At Dreman (1997-2002) he was first an analyst, then a portfolio manager and a managing director. From 1997-2007 and from January 1, 2009 to the present, he has written a stock-market column for Bloomberg News. At Thunderstorm Capital, he is the sole portfolio manager for separate accounts and co-manages a hedge fund. At the Adviser, he is President and Chief Investment Officer and is the sole portfolio manager of the Fund.

The SAI provides additional information about the Portfolio Manager's compensation, other accounts managed and ownership of securities in the Fund.

## Shareholder Information

---

### Share Price

The price of Fund shares is the Fund's net asset value ("NAV") per share. The NAV per share is calculated by dividing the value of the Fund's total assets, less its liabilities, by the number of its shares outstanding. In calculating the NAV, portfolio securities are valued using current market values or official closing prices, if available. The NAV is calculated at the close of regular trading of the New York Stock Exchange ("NYSE"), which is generally 4:00 p.m., Eastern time. The NAV will not be calculated on days that the NYSE is closed for trading.

Each security owned by the Fund that is listed on a securities exchange is valued at its last sale price on that exchange on the date as of which assets are valued. Where the security is listed on more than one exchange, the Fund will use the price on the exchange that the Fund generally considers to be the principal exchange on which the stock is traded. Portfolio securities listed on the NASDAQ Stock Market, Inc. ("NASDAQ") will be valued at the NASDAQ Official Closing Price, which may not necessarily represent the last sale price. If there has been no sale on such exchange or on NASDAQ on such day, the security is valued at the mean between the most recent bid and asked prices on such day. When market quotations are not readily available, a security or other asset is valued at its fair value as determined under fair value pricing procedures approved by the Board of Trustees. These fair value pricing procedures will also be used to price a security when corporate events, events in the securities market and/or world events cause the Adviser to believe that a security's last sale price may not reflect its actual market value. The intended effect of using fair value pricing procedures is to ensure that the Fund is accurately priced. The Board of Trustees will regularly evaluate whether the Fund's fair value pricing procedures continue to be appropriate in light of the specific circumstances of the Fund and the quality of prices obtained through their application by the Trust's valuation committee.

When fair value pricing is employed, the prices of securities used by the Fund to calculate its NAV may differ from quoted or published prices for the same securities. Due to the subjective and variable nature of fair value pricing, it is possible that the fair value determined for a particular security may be materially different (higher or lower) from the price of the security quoted or published by others or the value when trading resumes or realized upon its sale. Therefore, if a shareholder purchases or redeems Fund shares when the Fund holds securities priced at a fair value, the number of shares purchased or redeemed may be higher or lower than it would be if the Fund were using market value pricing.

In the case of foreign securities, the occurrence of certain events after the close of foreign markets, but prior to the time the Fund's NAV is calculated (such as a significant surge or decline in the U.S. or other markets) often will result in an adjustment to the trading prices of foreign securities when foreign markets open on the following business day. If such events occur, the Fund will value foreign securities at fair value, taking into account such events, in calculating the NAV. In such cases, use of fair valuation can reduce an investor's ability to seek to profit by estimating the Fund's NAV in advance of the time the NAV is calculated. The Adviser anticipates that the Fund's portfolio holdings will be fair valued only if market quotations for those holdings are considered unreliable.

Investors may be charged a fee if they effect transactions through a financial intermediary. The Fund has authorized one or more financial intermediaries (each an “Authorized Intermediary”) to receive on its behalf purchase and redemption orders. Authorized Intermediaries are authorized to designate other intermediaries to receive purchase and redemption orders on the Fund’s behalf. In such cases, the Fund will be deemed to have received a purchase or redemption order when an Authorized Intermediary or, if applicable, an Authorized Intermediary’s authorized designee, receives the order. Customer orders will be priced at the Fund’s NAV per share next computed after the order is received in good order by an Authorized Intermediary or its authorized designee.

## **How to Purchase Shares**

Shares of the Fund are purchased at the next NAV per share calculated after your purchase order is received by the Fund, or by an Authorized Intermediary.

*Minimum Investments.* The minimum initial investment in the Fund is \$2,500. The minimum investment for subsequent investments in any type of account is \$1,000. These minimums can be changed or waived at any time at the Fund’s discretion. Shareholders will be given at least 30 days’ notice of any increase in the minimum dollar amount of initial or subsequent investments. To request an account application, call toll free at 877-374-3888.

If you are purchasing shares through a financial intermediary, you must follow the procedures established by your financial intermediary. Your financial intermediary is responsible for sending your purchase order and wiring payment to U.S. Bancorp Fund Services, LLC, the Fund’s transfer agent (the “Transfer Agent”). Your financial intermediary holds the shares in your name and receives all confirmations of purchases and sales. Financial intermediaries placing orders for themselves or on behalf of their customers should call the Fund toll free at 877-374-3888, or follow the instructions listed in the following sections titled “Investing by Telephone,” “Purchase by Mail” and “Purchase by Wire.”

If you place an order for Fund shares through a financial intermediary in accordance with such financial intermediary’s procedures, and such financial intermediary then transmits your order to the Transfer Agent, in accordance with the Transfer Agent’s instructions, your purchase will be processed at the NAV per share next calculated after the Transfer Agent receives your order. The financial intermediary must promise to send to the Transfer Agent immediately available funds in the amount of the purchase price in accordance with the Transfer Agent’s procedures. If payment is not received within the time specified, the Transfer Agent may rescind the transaction and the financial intermediary will be held liable for any resulting fees or losses.

In the case of Authorized Intermediaries that have made satisfactory payment or redemption arrangements with the Fund, orders will be processed at the NAV next calculated after receipt by the Authorized Intermediary, consistent with applicable laws and regulations. Financial intermediaries, including Authorized Intermediaries, may set cut-off times for the receipt of orders that are earlier than the cut-off times established by the Fund. For more information about your financial intermediary’s rules and procedures

and whether your financial intermediary is an Authorized Intermediary, you should contact your financial institution directly.

All account applications (each an “Account Application”) to purchase Fund shares is subject to acceptance by the Fund and is not binding until so accepted. Shareholders will receive the next NAV per share calculated after the Account Application has been accepted by the Fund. The Fund reserves the right to reject any purchase order if, in its discretion, it is in the Fund’s best interest to do so. For example, a purchase order may be refused if it appears so large that it would disrupt the management of the Fund. Purchases may also be rejected from persons believed to be “market timers,” as described under the section entitled “Tools to Combat Frequent Transactions,” below. A service fee, currently \$25, as well as any loss sustained by the Fund, will be deducted from a shareholder’s account for any purchases that do not clear. The Fund and the Transfer Agent will not be responsible for any losses, liability, cost or expense resulting from rejecting any purchase order. Your order will not be accepted until a completed Account Application is received by the Fund or the Transfer Agent.

### **Purchase Requests Must be Received in Good Order**

Your share price will be the next NAV per share calculated after the Transfer Agent or your Authorized Intermediary receives your purchase request in good order. “Good order” means that your purchase request includes:

- the name of the Fund;
- the dollar amount of shares to be purchased;
- your account application or investment stub; and
- a check payable to “Thunderstorm Value Fund.”

All purchase requests received in good order before the close of the NYSE (generally 4:00 p.m., Eastern time) will be processed on that same day. Purchase requests received after the close of the NYSE (generally 4:00 p.m., Eastern time) will receive the next business day’s NAV per share.

Shares of the Fund have not been registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses.

*Investing by Telephone.* If you have completed the “Telephone Purchase Authorization” section of the Account Application, you may purchase additional shares by telephoning the Fund toll free at 877-374-3888. This option allows investors to move money from their bank account to their Fund account upon request. Only bank accounts held at domestic financial institutions that are Automated Clearing House (“ACH”) members may be used for telephone transactions. The minimum telephone purchase amount is \$2,500. If your order is received prior to the close of the NYSE (generally 4:00 p.m., Eastern time), shares will be purchased in your account at the price determined on the day your order is placed.

*Purchase by Mail.* To purchase the Fund's shares by mail, simply complete and sign the Account Application and mail it, along with a check made payable to "Thunderstorm Value Fund," to:

**Regular Mail**

Thunderstorm Value Fund  
c/o U.S. Bancorp Fund Services, LLC  
P.O. Box 701  
Milwaukee, WI 53201-0701

**Overnight or Express Mail**

Thunderstorm Value Fund  
c/o U.S. Bancorp Fund Services, LLC  
615 East Michigan Street, 3rd Floor  
Milwaukee, WI 53202

The Fund and the Transfer Agent do not consider the U.S. Postal Service or other independent delivery services to be their agents. Therefore, deposit in the mail or with such services, or receipt at U.S. Bancorp Fund Services, LLC post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent. All purchases by check must be in U.S. dollars drawn on a domestic financial institution. The Fund will not accept payment in cash or money orders. The Fund also does not accept cashier's checks in amounts of less than \$10,000. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares. The Fund is unable to accept post-dated checks, post-dated online bill pay checks, or any conditional order or payment.

*Purchase by Wire.* If you are making your first investment in the Fund, you must have completed an Account Application and received a Thunderstorm account number before you wire the funds to the Transfer Agent. You can mail or use an overnight service to deliver your Account Application to the Transfer Agent at the above address. Upon receipt of your completed Account Application the Transfer Agent will establish an account for you. Once your account has been established you may instruct your bank to send the wire. Prior to sending the wire please call the Transfer Agent at 877-374-3888 to advise them of the wire and to ensure proper credit upon receipt. Your bank must include the name of the Fund, your name and account number so that monies can be correctly applied. Your bank should transmit immediately available funds by wire to:

Wire to:	U.S. Bank, N.A.
ABA Number:	075000022
Credit:	U.S. Bancorp Fund Services, LLC
Account:	112-952-137
Further Credit:	Thunderstorm Value Fund (Shareholder Name/Account Registration) (Shareholder Account Number)

Wired funds must be received prior to the close of the NYSE (generally 4:00 p.m., Eastern time) to be eligible for same day pricing. The Fund and U.S. Bank, N.A. are not responsible for the consequences of delays from the banking or Federal Reserve wire system, or from incomplete wiring instructions.

*Subsequent Investments.* The minimum subsequent investment for all accounts is \$1,000. Shareholders will be given at least 30 days' written notice of any increase in the minimum dollar amount of subsequent investments. You may add to your account at any time by purchasing shares by mail, by telephone or by wire. You must call to notify the Fund at 877-374-3888 before wiring. A remittance form, which is attached to your individual

account statement, should accompany any investments made through the mail. All purchase requests must include your shareholder account number.

*Automatic Investment Plan.* For your convenience, the Fund offers an Automatic Investment Plan (“AIP”). Under the AIP, after your initial investment, you may authorize the Fund to withdraw automatically from your personal checking or savings account an amount that you wish to invest, which must be at least \$250, on a monthly basis. In order to participate in the AIP, your bank must be a member of the ACH network. If you wish to enroll in the AIP, complete the appropriate section in the Account Application. The Fund may terminate or modify this privilege at any time. You may terminate your participation in the AIP at any time by notifying the Transfer Agent five days prior to the effective date of the request. A fee (currently \$25) will be charged if your bank does not honor the AIP draft for any reason.

*Anti-Money Laundering Program.* The Trust has established an Anti-Money Laundering Compliance Program (the “Program”) as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the “USA PATRIOT Act”) and related anti-money laundering laws and regulations. To ensure compliance with this law, the Account Application asks for, among other things, the following information for all “customers” seeking to open an “account” (as those terms are defined in rules adopted pursuant to the USA PATRIOT Act):

- full name;
- date of birth (individuals only);
- Social Security or taxpayer identification number; and
- permanent street address (a P.O. Box alone is not acceptable).

Accounts opened by entities, such as corporations, limited liability companies, partnerships or trusts will require additional documentation.

Please note that if any information listed above is missing, your Account Application will be returned and your account will not be opened. In compliance with the USA PATRIOT Act and other applicable anti-money laundering laws and regulations, the Transfer Agent will verify the information on your application as part of the Program. The Fund reserves the right to request additional clarifying information and may close your account if such clarifying information is not received by the Fund within a reasonable time of the request or if the Fund cannot form a reasonable belief as to the true identity of a customer. If you require additional assistance when completing your Account Application, please contact the Transfer Agent at 877-374-3888.

## **How to Redeem Shares**

In general, orders to sell or “redeem” shares may be placed directly with the Fund or through a financial intermediary. However, if you originally purchased your shares through an financial intermediary, your redemption order must be placed with the same financial intermediary in accordance with the procedures established by that financial intermediary. Your financial intermediary is responsible for sending your order to the Transfer Agent and for crediting your account with the proceeds. You may redeem all or

part of the Fund's shares on any business day that the Fund calculates its NAV. To redeem shares with the Fund, you must contact the Fund either by mail or by phone to place a redemption order. You should request your redemption prior to the close of the NYSE (generally 4:00 p.m., Eastern time) by the Transfer Agent or by your Authorized Intermediary in order to obtain that day's closing NAV per share. Redemption requests received after the close of the NYSE (generally 4:00 p.m., Eastern time) will be treated as though received on the next business day.

Shareholders who have an Individual Retirement Account ("IRA") or other retirement plan must indicate on their redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election not to have tax withheld will generally be subject to 10% withholding.

*Payment of Redemption Proceeds.* You may redeem your Fund shares at a price equal to the NAV per share next determined after the Transfer Agent receives your redemption request in good order. Your redemption request cannot be processed on days the NYSE is closed. Redemption proceeds with respect to all requests received by the Fund in good order before the close of the regular trading session of the NYSE (generally 4:00 p.m., Eastern Time) will usually be sent on the next business day.

A redemption request will be deemed in "good order" if it includes:

- the shareholder's name;
- the name of the Fund you are redeeming;
- the account number;
- the share or dollar amount to be redeemed; and
- signatures by all shareholders on the account and a signature guarantee(s), if applicable.

You may have a check sent to the address of record, proceeds may be wired to your pre-established bank account or funds may be sent via electronic funds transfer through the ACH network using the bank instructions previously established for your account. Redemption proceeds will typically be sent on the business day following your redemption. Wires are subject to a \$15 fee. There is no charge to have proceeds sent via ACH, however, funds are typically credited to your bank within two to three days after redemption. In all cases, proceeds will be processed within seven calendar days after the Fund receives your redemption request.

Before selling recently purchased shares, please note that if the Transfer Agent has not yet collected payment for the shares you are selling, it may delay sending the proceeds until the payment is collected, which may take up to 12 calendar days from the purchase date. Furthermore, there are certain times when you may be unable to sell Fund shares or receive proceeds. Specifically, the Fund may suspend the right to redeem shares or postpone the date of payment upon redemption for more than seven calendar days: (1) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (2) for any period during which an emergency exists as a result of which disposal by the Fund of securities owned by it is not reasonably practicable or it is not reasonably practicable for the Fund to fairly determine

the value of its net assets; or (3) for such other periods as the SEC may permit for the protection of shareholders.

Redemption proceeds will be sent to the address of record. Signature guarantees can be obtained from banks and securities dealers, but not from a notary public. The Fund is not responsible for interest lost on redemption amounts due to lost or misdirected mail. The Transfer Agent may require a signature guarantee for certain redemption requests. A signature guarantee assures that your signature is genuine and protects you from unauthorized account redemptions. A signature guarantee of each owner is required in the following situations:

- if ownership is being changed on your account;
- when redemption proceeds are payable or sent to any person, address or bank account not on record;
- if a change of address request has been received by the Transfer Agent within the last 15 days; and
- for all redemptions in excess of \$100,000 from any shareholder account.

Non-financial transactions including establishing or modifying certain services on an account may require a signature verification from a Signature Verification Program member or other acceptable form of authentication from a financial institution source.

In addition to the situations described above, the Fund and the Transfer Agent reserve the right to require a signature guarantee or other acceptable signature verification in other instances based on the circumstances relative to the particular situation.

*Redemption by Mail.* You can execute most redemptions by furnishing an unconditional written request to the Fund to redeem your shares at the current NAV per share. Redemption requests in writing should be sent to the Transfer Agent at:

**Regular Mail**

Thunderstorm Value Fund  
c/o U.S. Bancorp Fund Services, LLC  
P.O. Box 701  
Milwaukee, WI 53201-0701

**Overnight or Express Mail**

Thunderstorm Value Fund  
c/o U.S. Bancorp Fund Services, LLC  
615 East Michigan Street, 3rd Floor  
Milwaukee, WI 53202

*Wire Redemption.* Wire transfers may be arranged to redeem shares. The Transfer Agent charges a fee, currently \$15, per wire redemption against your account on dollar specific trades, and from proceeds on complete redemptions and share-specific trades.

*Telephone Redemption.* If you have been authorized to perform telephone transactions (either by completing the required portion of your Account Application or by subsequent arrangement in writing with the Fund), you may redeem shares, up to \$100,000, by instructing the Fund by phone at 877-374-3888. A signature authentication from a Signature Verification Program member or other acceptable financial institution source will be required of all shareholders in order to qualify for or to change telephone redemption privileges on an existing account. Telephone redemptions will not be made if you have notified the Transfer Agent of a change of address within 15 days before the redemption request. If you have a retirement account, you may not redeem shares by

telephone. Once a telephone transaction has been placed, it cannot be cancelled or modified.

*Note:* Neither the Fund nor any of its service providers will be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine. To confirm that all telephone instructions are genuine, the Fund will use reasonable procedures, such as requesting:

- that you correctly state your Fund account number;
- the name in which your account is registered; or
- the Social Security or taxpayer identification number under which the account is registered.

*Systematic Withdrawal Plan.* The Fund offers a systematic withdrawal plan (the “SWP”) whereby shareholders or their representatives may request a redemption in a predetermined amount monthly, quarterly or annually. Proceeds can be sent via check to the address on the account or proceeds can be sent by electronic funds transfer via the ACH network to a designated bank account. To start the SWP, your account must have Fund shares with a value of at least \$2,500, and the minimum amount that may be withdrawn is \$100 per payment. The SWP may be terminated or modified by the Fund at any time. Any request to change or terminate your SWP should be communicated in writing or by telephone to the Transfer Agent no later than five business days before the next scheduled withdrawal. A withdrawal under the SWP involves a redemption of Fund shares, and may result in a gain or loss for federal income tax purposes. In addition, if the amount withdrawn exceeds the amounts credited to your account, the account ultimately may be depleted. To establish the SWP, complete the SWP section of the Account Application. Please call 877-374-3888 for additional information regarding the SWP.

*The Fund’s Right to Redeem an Account.* The Fund reserves the right to redeem the shares of any shareholder whose account balance is less than \$1,000, other than as a result of a decline in the NAV of the Fund or for market reasons. The Fund will provide shareholders with written notice 30 days prior to redeeming the shareholder’s account.

*Redemption-in-Kind.* The Fund generally pays redemption proceeds in cash. However, under unusual conditions that make the payment of cash unwise (and for the protection of the Fund’s remaining shareholders), the Fund might pay all or part of a shareholder’s redemption proceeds in liquid securities with a market value equal to the redemption price (redemption-in-kind).

Specifically, if the amount you are redeeming during any 90-day period is in excess of the lesser of \$250,000 or 1% of the NAV of the Fund, valued at the beginning of such period, the Fund has the right to redeem your shares by giving you the amount that exceeds \$250,000 or 1% of the NAV of the Fund in securities instead of cash. If the Fund pays your redemption proceeds by a distribution of securities, you could incur brokerage or other charges in converting the securities to cash, and will bear any market risks associated with such securities until they are converted into cash.

## Tools to Combat Frequent Transactions

The Fund is intended for long-term investors. Short-term “market-timers” who engage in frequent purchases and redemptions can disrupt the Fund’s investment program and create additional transaction costs that are borne by all of the Fund’s shareholders. The Board of Trustees has adopted policies and procedures that are designed to discourage excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm performance. The Fund takes steps to reduce the frequency and effect of these activities in the Fund. These steps may include, among other things, monitoring trading activity and using fair value pricing procedures, as determined by the Board of Trustees, when the Adviser determines current market prices are not readily available. Although these efforts are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity will occur. The Fund seeks to exercise its judgment in implementing these tools to the best of its abilities in a manner that it believes is consistent with shareholder interests. Except as noted herein, the Fund applies all restrictions uniformly in all applicable cases.

*Monitoring Trading Practices.* The Fund uses a variety of techniques to monitor for and detect abusive trading practices. These techniques may change from time to time as determined by the Fund in its sole discretion. To minimize harm to the Fund and its shareholders, the Fund reserves the right to reject any purchase order (but not a redemption request) in whole or in part, for any reason (including, without limitation, purchases by persons whose trading activity in Fund shares is believed by the Adviser to be harmful to the Fund) and without prior notice. The Fund may decide to restrict purchase and sale activity in its shares based on various factors, including whether frequent purchase and sale activity will disrupt portfolio management strategies and adversely affect Fund performance.

*Fair Value Pricing.* The Fund employs fair value pricing selectively to ensure greater accuracy in its daily NAV and to prevent dilution by frequent traders or market timers who seek to take advantage of temporary market anomalies. The Board of Trustees has developed procedures which utilize fair value pricing when reliable market quotations are not readily available or the Fund’s pricing service does not provide a valuation (or provides a valuation that, in the judgment of the Adviser, does not represent the security’s fair value), or when, in the judgment of the Adviser, events have rendered the market value unreliable. Valuing securities at fair value involves reliance on judgment. Fair value determinations are made in good faith in accordance with procedures adopted by the Board of Trustees. There can be no assurance that the Fund will obtain the fair value assigned to a security if it were to sell the security at approximately the time at which a Fund determines its NAV per share. More detailed information regarding fair value pricing can be found in this Prospectus under the heading entitled “Share Price.”

Due to the complexity and subjectivity involved in identifying abusive trading activity and the volume of shareholder transactions the Fund handles, there can be no assurance that the Fund’s efforts will identify all trades or trading practices that may be considered abusive. In particular, since the Fund receives purchase and sale orders through financial intermediaries that use group or omnibus accounts, the Fund cannot always detect frequent trading. However, the Fund will work with financial institutions as necessary to

discourage shareholders from engaging in abusive trading practices and to impose restrictions on excessive trades. In this regard, the Fund has entered into information sharing agreements with financial intermediaries pursuant to which these intermediaries are required to provide to the Fund, at the Fund's request, certain information relating to their customers investing in the Fund through non-disclosed or omnibus accounts. The Fund will use this information to attempt to identify abusive trading practices. Financial intermediaries are contractually required to follow any instructions from the Fund to restrict or prohibit future purchases from shareholders that are found to have engaged in abusive trading in violation of the Fund's policies. However, the Fund cannot guarantee the accuracy of the information provided to it from financial intermediaries and cannot ensure that it will always be able to detect abusive trading practices that occur through non-disclosed and omnibus accounts. As a result, the Fund's ability to monitor and discourage abusive trading practices in non-disclosed or omnibus accounts may be limited.

### **Other Fund Policies**

*Telephone Transactions.* If you elect telephone privileges on the account application or in a letter to the Fund, you may be responsible for any fraudulent telephone orders as long as the Fund has taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified.

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Fund by telephone, you may also mail your requests to the Fund at the address listed under the section entitled "How to Purchase Shares" above.

Telephone trades must be received by or prior to market close. During periods of high market activity, shareholders may encounter higher than usual call waiting times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to the close of the NYSE (generally 4:00 pm., Eastern time).

*Policies of Other Financial Intermediaries.* Your Authorized Intermediary may establish policies that differ from those of the Fund. For example, the institution may charge transaction fees, set higher minimum investments or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Please contact your Authorized Intermediary for details.

*Householding.* In an effort to decrease costs, the Fund intends to reduce the number of duplicate prospectuses and annual and semi-annual reports you receive by sending only one copy of each to those addresses shared by two or more accounts and to shareholders the Fund reasonably believes are from the same family or household. If you would like to discontinue householding for your accounts, please call toll-free at 877-374-3888 to request individual copies of these documents. Once the Fund receives notice to stop householding, the Fund will begin sending individual copies 30 days after receiving your request. This policy does not apply to account statements.

*Inactive Accounts.* Your mutual fund account may be transferred to your state of residence if no activity occurs within your account during the "inactivity period" specified in your State's abandoned property laws.

---

## Distributions and Taxes

---

### Distributions

The Fund will make distributions of net investment income and net capital gains, if any, at least annually, typically during the month of December. The Fund may make additional distributions if it deems it desirable at another time during any year.

All distributions will be reinvested in Fund shares unless you choose one of the following options: (1) receive distributions of net capital gains in cash, while reinvesting net investment income distributions in additional Fund shares; (2) receive all distributions in cash; or (3) reinvest net capital gain distributions in additional fund shares, while receiving distributions of net investment income in cash.

If you wish to change your distribution option, write to the Transfer Agent in advance of the payment date of the distribution. Any such change will be effective only as to distributions for which the record date is five or more business days after the Transfer Agent receives the written request.

If you elect to receive distributions in cash and the U.S. Postal Service is unable to deliver your check, or if a check remains uncashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund's then current NAV per share and to reinvest all subsequent distributions.

### Tax Consequences

Distributions of the Fund's net investment company taxable income (which includes, but is not limited to, interest, dividends, net short-term capital gains and net gains from foreign currency transactions), if any, are generally taxable to the Fund's shareholders as ordinary income. To the extent that the Fund's distributions of net investment company taxable income are reported as attributable to "qualified dividend" income, such income may be subject to tax at the reduced rate of federal income tax applicable to non-corporate shareholders for net long-term capital gains, if certain holding period requirements have been satisfied by the Fund and the shareholder. The current federal tax provisions applicable to "qualified dividends" are scheduled to expire for tax years beginning after December 31, 2012. To the extent the Fund's distributions of net investment company taxable income are attributable to net short-term capital gains, such distributions will be treated as ordinary income for the purposes of income tax reporting and will not be available to offset a shareholder's capital losses from other investments.

To the extent the Fund's distributions of net capital gains (net long-term capital gains less net short-term capital losses) are reported as capital gain distributions, such distributions will generally be taxable as long-term capital gains (currently at a maximum rate of 15%) regardless of the length of time that a shareholder has owned Fund shares. If a net capital loss (net long-term capital losses plus net short-term capital gains) exceeds capital gains, the overall losses generally are subject to deduction limitations.

You will be taxed in the same manner whether you receive your distributions (whether of net investment company taxable income or net capital gains) in cash or reinvest them in additional Fund shares. Distributions are generally taxable when received. However, distributions declared in October, November or December to shareholders of record on a

date in such a month and paid the following January are taxable as if received on December 31.

Shareholders who sell or redeem shares generally will have a capital gain or loss from the sale or redemption. The amount of the gain or loss and the applicable rate of federal income tax will depend generally upon the amount paid for the shares, the amount received from the sale or redemption and how long the shares were held by a shareholder. Any loss arising from the sale or redemption of shares held for six months or less, however, is treated as a long-term capital loss to the extent of any amounts treated as distributions of net capital gain received on such shares. In determining the holding period of such shares for this purpose, any period during which your risk of loss is offset by means of options, short sales or similar transactions is not counted. If you purchase Fund shares within 30 days before or after redeeming other Fund shares at a loss, all or part of your loss will not be deductible and will instead increase the basis of the newly purchased shares.

The federal tax status of all distributions made by the Fund for the preceding year will be annually reported to shareholders. Distributions by the Fund may also be subject to state and local taxes. Additional tax information may be found in the SAI.

This section is not intended to be a full discussion of federal tax laws and the effect of such laws on you. There may be other federal, state, foreign or local tax considerations applicable to a particular investor. You are urged to consult your own tax adviser.

## **Financial Highlights**

---

The following financial highlights table shows the Fund's financial performance information for the period from December 31, 2007 (its commencement of operations) to November 30, 2008 and for the fiscal years ended November 30, 2009 and 2010. Certain information reflects financial results for a single share of the Fund. The total return in the table represents the rate that you would have earned or lost on an investment in the Fund (assuming you reinvested all distributions). This information has been audited by Deloitte & Touche LLP, the independent registered public accounting firm of the Fund, whose report, along with the Fund's financial statements, are included in the Fund's Annual Report to Shareholders, which is available upon request.

Per Share Data for a Share Outstanding Throughout each Period

	<u>Year Ended November 30, 2010</u>	<u>Year Ended November 30, 2009</u>	<u>Period Ended November 30, 2008<sup>(1)</sup></u>
<b>Net Asset Value,</b>			
<b>Beginning of Period</b> . . . . .	\$ 8.04	\$ 6.52	\$10.00
<b>Income (loss) from investment operations:</b>			
Net investment income (loss) . . .	(0.04)	0.03	0.02

Before waiver and expense reimbursement <sup>(3)</sup> . . . . .	2.77%	3.01%	2.43%
After waiver and expense reimbursement <sup>(3)</sup> . . . . .	1.99%	1.99%	1.99%
Ratio of net investment income to average net assets:			
Before waiver and expense reimbursement <sup>(3)</sup> . . . . .	(1.19)%	(0.62)%	(0.14)%
After waiver and expense reimbursement <sup>(3)</sup> . . . . .	(0.41)%	0.40%	0.30%
Portfolio turnover rate <sup>(2)</sup> . . . . .	92.86%	88.52%	22.49%

(1) The Fund commenced operations on December 31, 2007.

(2) Not annualized for periods less than a full year.

(3) Annualized for periods less than one year.

## PRIVACY NOTICE

---

The Fund collects non-public personal information about you from the following sources:

- information we receive about you on applications or other forms;
- information you give us orally; and/or
- information about your transactions with us or others.

**We do not disclose any non-public personal information about our shareholders or former shareholders without the shareholder's authorization, except as permitted by law or in response to inquiries from governmental authorities. We may share information with affiliated parties and unaffiliated third parties with whom we have contracts for servicing the Fund. We will provide unaffiliated third parties with only the information necessary to carry out their assigned responsibility. All shareholder records will be disposed of in accordance with applicable law. We maintain physical, electronic and procedural safeguards to protect your non-public personal information and require third parties to treat your non-public personal information with the same high degree of confidentiality.**

**In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of your financial intermediary would govern how your non-public personal information would be shared with unaffiliated third parties.**
