

Statement of Additional Information

Dated: March 30, 2009

Dorfman Value Fund

This Statement of Additional Information (“SAI”) provides general information about the Dorfman Value Fund (the “Fund”), a series of Trust for Professional Managers (the “Trust”). This SAI is not a prospectus and should be read in conjunction with the Fund’s current prospectus dated March 30, 2009 (the “Prospectus”), as supplemented and amended from time to time, which is incorporated herein by reference. The Fund’s audited financial statements for the fiscal period ended November 30, 2008 are incorporated herein by reference to the Fund’s 2008 Annual Report to Shareholders. To obtain a copy of the Prospectus and/or the Fund’s 2008 Annual Report to Shareholders, please write or call the Fund at the address or telephone number below:

The Trust

The Trust is a Delaware statutory trust organized on May 29, 2001, and is registered with the Securities and Exchange Commission (“SEC”) as an open-end management investment company. The Fund is one series, or mutual fund, formed by the Trust. The Fund is a diversified series and has its own investment objective and policies. As of the date of this SAI, shares of 21 other series of the Trust are offered in separate prospectuses and statements of additional information. The Trust may start additional series and offer shares of a new fund under the Trust at any time. On October 28, 2004, the Trust changed its name to “Trust for Professional Managers.” Before that time, the Trust was known as “Zodiac Trust.”

The Trust is authorized to issue an unlimited number of interests (or shares). Interests in the Fund are represented by shares of beneficial interest each with a par value of \$0.001. Each series of the Trust has equal voting rights and liquidation rights, and are voted in the aggregate and not by the series except in matters where a separate vote is required by the Investment Company Act of 1940, as amended (the “1940 Act”), or when the matters affect only the interest of a particular series. When matters are submitted to shareholders for a vote, each shareholder is entitled to one vote for each full share owned and fractional votes for fractional shares owned. The Trust does not normally hold annual meetings of shareholders. The Trust’s Board of Trustees (the “Board of Trustees”) shall promptly call and give notice of a meeting of shareholders for the purpose of voting upon removal of any trustee when requested to do so in writing by shareholders holding 10% or more of the Trust’s outstanding shares.

Each share of the Fund represents an equal proportionate interest in the assets and liabilities belonging to the Fund and is entitled to such distributions out of the income belonging to the Fund as are declared by the Board of Trustees. The Board of Trustees has the authority from time to time to divide or combine the shares of any series into a greater or lesser number of shares of that series so long as the proportionate beneficial interests in the assets belonging to that series and the rights of shares of any other series are in no way affected. Additionally, in the case of any liquidation of a series, the holders of shares of the series being liquidated are entitled to receive a distribution out of the assets, net of the liabilities, belonging to that series. Expenses attributable to any series are borne by that series. Any general expenses of the Trust not readily identifiable as belonging to a particular series are allocated by, or under the direction of, the Board of Trustees on the basis of relative net assets, number of shareholders or other equitable method. No shareholder is liable to further calls or to assessment by the Trust without his or her express consent.

The assets of the Fund received for the issue or sale of its shares, and all income, earnings, profits and proceeds thereof, subject only to the rights of creditors, shall constitute the underlying assets of the Fund. In the event of the dissolution or liquidation of the Fund, the holders of shares of the Fund are entitled to share pro rata in the net assets of the Fund available for distribution to shareholders.

Thunderstorm Mutual Funds LLC is the Fund’s investment adviser (the “Adviser”).

Investment Policies, Strategies and Associated Risks

The investment objective of the Fund is long-term capital appreciation. The Fund is diversified. Under applicable federal laws, to qualify as a diversified fund, the Fund, with respect to 75% of its total assets, may not invest greater than 5% of its total assets in any one issuer and may not hold greater than 10% of the securities of one issuer. The remaining 25% of the Fund’s total assets does not need to be “diversified” and may be invested in securities of a single issuer, subject to other applicable laws. The diversification of a mutual fund’s holdings is measured at the time the fund purchases a security. However, if a fund purchases a security and holds it for a period of time, the

security may become a larger percentage of the fund's total assets due to movements in the financial markets. If the market affects several securities held by a fund, the fund may have a greater percentage of its assets invested in securities of fewer issuers. Because the Fund is diversified, the Fund is less subject to the risk that its performance may be hurt disproportionately by the poor performance of relatively few securities despite the fund qualifying as a diversified fund under applicable federal laws.

There is no assurance that the Fund will achieve its investment objective. The following discussion supplements the description of the Fund's investment objective and principal investment strategies set forth in the Prospectus. Except for the fundamental investment limitations listed below (see "Fundamental Investment Limitations"), the Fund's investment strategies and policies are not fundamental and may be changed by sole action of the Board of Trustees, without shareholder approval. While the Fund is permitted to hold securities and engage in various strategies as described hereafter, it is not obligated to do so. The Fund's investment objective and strategies may be changed without the approval of the Fund's shareholders upon 30 days' written notice to shareholders.

Whenever an investment policy or limitation states a maximum percentage of the Fund's assets that may be invested in any security, or other asset, or sets forth a policy regarding quality standards, such standard or percentage limitation will be determined immediately after and as a result of the Fund's acquisition of such security or other asset. Accordingly, any subsequent change in values, net assets or other circumstances will not be considered when determining whether an investment complies with the Fund's investment policies and limitations. In addition, if a bankruptcy or other extraordinary event occurs concerning a particular investment by the Fund, the Fund may receive stock, real estate or other investments that the Fund would not, or could not, buy. If this happens, the Fund will sell such investments as soon as practicable while trying to maximize the return to its shareholders. Please note, however, that the guidance referenced in the first two sentences of this paragraph does not apply to the Fund's investments in illiquid securities or the Fund's borrowing of money.

Recent Market Events

During 2008 and 2009, U.S. and international markets experienced dramatic volatility. As a result, the securities markets have experienced substantially lower valuations, reduced liquidity, price volatility, credit downgrades, and increased likelihood of default and valuation difficulties. Accordingly, the risks of investing in the following securities have increased.

Equity Securities

An equity security (such as a stock, partnership interest or other beneficial interest in an issuer) represents a proportionate share of the ownership of a company. Its value is based on the success of the company's business, any income paid to stockholders, the value of its assets and general market conditions. Common stocks and preferred stocks are examples of equity securities. Preferred stocks are equity securities that often pay dividends at a specific rate and have a preference over common stocks in dividend payments and liquidation of assets. Some preferred stocks may be convertible into common stock. Convertible securities are securities (such as debt securities or preferred stock) that may be converted into or exchanged for a specified amount of common stock of the same or different issuer within a particular period of time at a specified price or formula.

The risks of investing in companies in general include business failure and reliance on erroneous reports. To the extent the Fund is invested in the equity securities of small- or medium-size companies, it will be exposed to the risks of smaller sized companies. Small- and medium-size companies often have narrower markets for their goods and/or services and more limited managerial and financial resources than larger, more established companies. Furthermore, those companies often have limited product lines or services, markets, or financial resources, or are dependent on a small

management group. In addition, because these stocks are not well-known to the investing public, do not have significant institutional ownership, and are followed by relatively few security analysts, there will normally be less publicly available information concerning these securities compared to what is available for the securities of larger companies. Adverse publicity and investor perceptions, whether or not based on fundamental analysis, can decrease the value and liquidity of securities held by the Fund. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of the Fund's portfolio.

Warrants

The Fund may invest in warrants as a non-principal investment strategy. A warrant gives the holder a right to purchase at any time during a specified period a predetermined number of shares of common stock at a fixed price. Unlike convertible debt securities or preferred stock, warrants do not pay a fixed coupon or dividend. Investments in warrants involve certain risks, including the possible lack of a liquid market for resale of the warrants, potential price fluctuations as a result of speculation or other factors and failure of the price of the underlying security to reach or have reasonable prospects of reaching a level at which the warrant can be prudently exercised (in which event the warrant may expire without being exercised, resulting in a loss of the Fund's entire investment therein).

Foreign Investments and Currencies

The Fund may invest in securities of foreign issuers that are not publicly traded in the United States. The Fund may also invest in American Depositary Receipts ("ADRs") and European Depositary Receipts ("EDRs"), foreign securities traded on a national securities market, purchase and sell foreign currency on a spot basis and enter into forward currency contracts (see "Forward Currency Contracts," below).

Depositary Receipts. The Fund may invest its assets in securities of foreign issuers in the form of depositary receipts, such as ADRs and EDRs, which are securities representing securities of foreign issuers. A purchaser of unsponsored depositary receipts may not have unlimited voting rights and may not receive as much information about the issuer of the underlying securities as with a sponsored depositary receipt. Generally, ADRs, in registered form, are denominated in U.S. dollars and are designed for use in the U.S. securities markets, while EDRs, in bearer form, may be denominated in other currencies and are designed for use in European securities markets. ADRs are receipts typically issued by a U.S. bank or trust company evidencing ownership of the underlying securities. EDRs are European receipts evidencing similar arrangements. For purposes of the Fund's investment policies, ADRs and EDRs are deemed to have the same classification as the underlying securities they represent. Thus, an ADR or EDR representing ownership of common stock will be treated as common stock.

Risks of Investing in Foreign Securities. Investments in foreign securities involve certain inherent risks, including the following:

Political and Economic Factors. Individual foreign economies of certain countries may differ favorably or unfavorably from the U.S. economy in such respects as growth of gross national product, rate of inflation, capital reinvestment, resource self-sufficiency, diversification and balance of payments position. The internal politics of certain foreign countries may not be as stable as those of the United States. Governments in certain foreign countries also continue to participate to a significant degree, through ownership interest or regulation, in their respective economies. Action by these governments could include restrictions on foreign investment, nationalization, expropriation of goods or imposition of taxes, and could have a significant effect on market prices of securities and payment of interest. The economies of many foreign countries are heavily dependent upon international trade and are accordingly affected by the trade policies and economic conditions of their

trading partners. Enactment by these trading partners of protectionist trade legislation could have a significant adverse effect upon the securities markets of such countries.

Currency Fluctuations. The Fund may invest in securities denominated in foreign currencies. Accordingly, a change in the value of any such currency against the U.S. dollar will result in a corresponding change in the U.S. dollar value of the Fund's assets denominated in that currency. Such changes will also affect the Fund's income. The value of the Fund's assets may also be affected significantly by currency restrictions and exchange control regulations enacted from time to time.

Market Characteristics. The Adviser expects that many foreign securities in which the Fund invests will be purchased in over-the-counter markets or on exchanges located in the countries in which the principal offices of the issuers of the various securities are located, if that is the best available market. Foreign exchanges and markets may be more volatile than those in the United States. While growing in volume, they usually have substantially less volume than U.S. markets, and the Fund's foreign securities may be less liquid and more volatile than U.S. securities. Moreover, settlement practices for transactions in foreign markets may differ from those in United States markets, and may include delays beyond periods customary in the United States. Foreign security trading practices, including those involving securities settlement where Fund assets may be released prior to receipt of payment or securities, may expose the Fund to increased risk in the event of a failed trade or the insolvency of a foreign broker-dealer.

Legal and Regulatory Matters. Certain foreign countries may have less supervision of securities markets, brokers and issuers of securities, and less financial information available from issuers, than is available in the United States.

Taxes. The interest and dividends payable on certain of the Fund's foreign portfolio securities may be subject to foreign withholding taxes, thus reducing the net amount of income available for distribution to Fund shareholders.

Costs. To the extent that the Fund invests in foreign securities, its expense ratio is likely to be higher than those of investment companies investing only in domestic securities, since the cost of maintaining the custody of foreign securities is higher.

Emerging Markets. Some of the securities in which the Fund may invest may be located in developing or emerging markets, which entail additional risks, including less social, political and economic stability; smaller securities markets and lower trading volume, which may result in less liquidity and greater price volatility; national policies that may restrict the Fund's investment opportunities, including restrictions on investments in issuers or industries, or expropriation or confiscation of assets or property; and less developed legal structures governing private or foreign investment.

In considering whether to invest in the securities of a foreign company, the Adviser considers such factors as the characteristics of the particular company, differences between economic trends and the performance of securities markets within the U.S. and those within other countries, and also factors relating to the general economic, governmental and social conditions of the country or countries where the company is located. The extent to which the Fund will be invested in foreign companies and countries and depositary receipts will fluctuate from time to time within the limitations described in the Prospectus, depending on the Adviser's assessment of prevailing market, economic and other conditions.

Forward Currency Contracts. The Fund may enter into forward currency contracts in anticipation of changes in currency exchange rates. A forward currency contract is an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. For example, the Fund might purchase a particular currency or enter into a forward currency contract to preserve the U.S. dollar price of securities it intends to or has contracted to purchase. Alternatively, it might sell a particular currency on either a spot or forward basis to hedge against an anticipated decline in the dollar value of securities it intends to or has contracted to sell. Although this strategy could minimize the risk of loss due to a decline in the value of the hedged currency, it could also limit any potential gain from an increase in the value of the currency.

Temporary and Cash Investments

Under normal market conditions, the Fund will stay fully invested according to its principal investment strategies as noted above. The Fund, however, may temporarily depart from its principal investment strategies by making short-term investments in cash, cash equivalents, and high-quality, short-term debt securities and money market instruments for temporary defensive purposes in response to adverse market, economic or political conditions. This may result in the Fund not achieving its investment objectives during that period.

For longer periods of time, the Fund may hold a substantial cash position. If the market advances during periods when the Fund is holding a large cash position, the Fund may not participate to the extent it would have if the Fund had been more fully invested. To the extent that the Fund uses a money market fund for its cash position, there will be some duplication of expenses because the Fund would bear its pro rata portion of such money market fund's advisory fees and operational expenses.

The Fund may invest in any of the following securities and instruments:

Money Market Mutual Funds. The Fund may invest in money market mutual funds in connection with its management of daily cash positions or as a temporary defensive measure. Generally, money market mutual funds seek to earn income consistent with the preservation of capital and maintenance of liquidity. They primarily invest in high quality money market obligations, including securities issued or guaranteed by the U.S. Government or its agencies and instrumentalities, bank obligations and high-grade corporate instruments. These investments generally mature within 397 days from the date of purchase. An investment in a money market mutual fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any government agency. The Fund's investments in money market mutual funds may be used for cash management purposes and to maintain liquidity in order to satisfy redemption requests or pay unanticipated expenses.

Your cost of investing in the Fund will generally be higher than the cost of investing directly in the underlying money market mutual fund shares. You will indirectly bear fees and expenses charged by the underlying money market mutual funds in addition to the Fund's direct fees and expenses. Furthermore, the use of this strategy could affect the timing, amount and character of distributions to you and therefore may increase the amount of taxes payable by you.

Bank Certificates of Deposit, Bankers' Acceptances and Time Deposits. The Fund may acquire certificates of deposit, bankers' acceptances and time deposits. Certificates of deposit are negotiable certificates issued against monies deposited in a commercial bank for a definite period of time and earning a specified return. Bankers' acceptances are negotiable drafts or bills of exchange, normally drawn by an importer or exporter to pay for specific merchandise, which are "accepted" by a bank, meaning in effect that the bank unconditionally agrees to pay the face value of the instrument on maturity. Certificates of deposit and bankers' acceptances acquired by the Fund will be dollar-

denominated obligations of domestic or foreign banks or financial institutions which at the time of purchase have capital, surplus and undivided profits in excess of \$100 million (including assets of both domestic and foreign branches), based on latest published reports, or less than \$100 million if the principal amount of such bank obligations are fully insured by the U.S. Government.

Domestic banks and foreign banks are subject to different governmental regulations with respect to the amount and types of loans that may be made and interest rates that may be charged. In addition, the profitability of the banking industry depends largely upon the availability and cost of funds for the purpose of financing lending operations under prevailing money market conditions. General economic conditions as well as exposure to credit losses arising from possible financial difficulties of borrowers play an important part in the operations of the banking industry.

As a result of federal and state laws and regulations, domestic banks are, among other things, required to maintain specified levels of reserves, limited in the amount which they can loan to a single borrower and subject to other regulations designed to promote financial soundness. However, such laws and regulations do not necessarily apply to foreign bank obligations that the Fund may acquire.

In addition to purchasing certificates of deposit and bankers' acceptances, to the extent permitted under its investment objective and policies stated above and in the Prospectus, the Fund may make interest-bearing time or other interest-bearing deposits in commercial or savings banks. Time deposits are non-negotiable deposits maintained at a banking institution for a specified period of time at a specified interest rate.

Savings Association Obligations. The Fund may invest in certificates of deposit (interest-bearing time deposits) issued by savings banks or savings and loan associations that have capital, surplus and undivided profits in excess of \$100 million, based on latest published reports, or less than \$100 million if the principal amount of such obligations is fully insured by the U.S. Government.

Commercial Paper, Short-Term Notes and Other Corporate Obligations. The Fund may invest a portion of its assets in commercial paper and short-term notes. Commercial paper consists of unsecured promissory notes issued by corporations. Issues of commercial paper and short-term notes will normally have maturities of less than nine months and fixed rates of return, although such instruments may have maturities of up to one year.

Commercial paper and short-term notes will consist of issues rated at the time of purchase "A-2" or higher by S&P, "Prime-1" or "Prime-2" by Moody's, or similarly rated by another nationally recognized statistical rating organization ("NRSRO") or, if unrated, will be determined by the Adviser to be of comparable quality.

Corporate obligations include bonds and notes issued by corporations to finance longer-term credit needs than supported by commercial paper. While such obligations generally have maturities of ten years or more, the Fund may purchase corporate obligations which have remaining maturities of one year or less from the date of purchase and which are rated "A" or higher by S&P or "A" or higher by Moody's. For a more detailed description of ratings, please see Appendix A.

Illiquid Securities

Certain types of securities in which the Fund may invest may be illiquid at the time of purchase, which means that there may be legal or contractual restrictions on their disposition, or that there are no readily available market quotations for such a security. Illiquid securities present the risks that the Fund may have difficulty valuing these holdings and/or may be unable to sell these holdings at the time or price desired. There are generally no restrictions on the Fund's ability to invest in restricted

securities (that is, securities that are not registered pursuant to the Securities Act), except to the extent such securities may be considered illiquid. Securities issued pursuant to Rule 144A of the Securities Act will be considered liquid if determined to be so under procedures adopted by the Board of Trustees. The Adviser is responsible for making the determination as to the liquidity of restricted securities (pursuant to the procedures adopted by the Board of Trustees). The Adviser will determine a security to be illiquid if it cannot be sold or disposed of in the ordinary course of business within seven days at the value at which the Fund has valued the security. Factors considered in determining whether a security is illiquid may include, but are not limited to: the frequency of trades and quotes for the security; the number of dealers willing to purchase and sell the security and the number of potential purchasers; the number of dealers who undertake to make a market in the security; the nature of the security, including whether it is registered or unregistered, and the market place; whether the security has been rated by an NRSRO; the period of time remaining until the maturity of a debt instrument or until the principal amount of a demand instrument can be recovered through demand; the nature of any restrictions on resale; and with respect to municipal lease obligations and certificates of participation, there is reasonable assurance that the obligation will remain liquid throughout the time the obligation is held and, if unrated, an analysis similar to that which would be performed by an NRSRO is performed. If a restricted security is determined to be liquid, it will not be included within the category of illiquid securities, which may not exceed 15% of the Fund's net assets. Investing in Rule 144A securities could have the effect of increasing the level of the Fund's illiquidity to the extent that the Fund, at a particular point in time may be unable to find qualified institutional buyers interested in purchasing the securities. The Fund is permitted to sell restricted securities to qualified institutional buyers.

Fundamental Investment Limitations

The Trust (on behalf of the Fund) has adopted the following restrictions as fundamental policies, which may not be changed without the favorable vote of the holders of a "majority," as defined in the 1940 Act, of the outstanding voting securities of the Fund. Under the 1940 Act, the "vote of the holders of a majority of the outstanding voting securities" means the vote of the holders of the lesser of (i) 67% of the shares of the Fund represented at a meeting at which the holders of more than 50% of its outstanding shares are represented or (ii) more than 50% of the outstanding shares of the Fund.

The Fund may not:

1. Issue senior securities, borrow money or pledge its assets, except that (i) the Fund may borrow from banks in amounts not exceeding one-third of its total assets (including the amount borrowed); and (ii) this restriction shall not prohibit the Fund from engaging in options transactions or short sales in accordance with its objectives and strategies;
2. Act as underwriter (except to the extent the Fund may be deemed to be an underwriter in connection with the sale of securities in its investment portfolio);
3. Invest more than 25% of its net assets, calculated at the time of purchase and taken at market value, in securities of issuers in any one industry (other than U.S. Government securities);
4. Purchase or sell real estate unless acquired as a result of ownership of securities (although the Fund may purchase and sell securities which are secured by real estate and securities of companies that invest or deal in real estate);
5. Purchase or sell physical commodities, unless acquired as a result of ownership of securities or other instruments and provided that this restriction does not prevent the Fund from

engaging in transactions involving currencies and futures contracts and options thereon or investing in securities or other instruments that are secured by physical commodities;

6. Make loans of money (except for the lending of its portfolio securities, purchases of debt securities consistent with the investment policies of the Fund and except for repurchase agreements); or
7. With respect to 75% of its total assets, invest more than 5% of its total assets, computed at the time of investment, in securities of a single issuer or hold more than 10% of the voting securities of such issuer (does not apply to investment in the securities of the U.S. Government, its agencies or instrumentalities or other investment companies).

The following is a list of non-fundamental investment restrictions applicable to the Fund. These restrictions can be changed by the Board of Trustees, but the change will only be effective after notice is given to shareholders of the Fund:

The Fund may not:

Invest more than 15% of the value of its net assets, taken at the time of investment, in illiquid securities. Illiquid securities are those securities without readily available market quotations, including repurchase agreements having a maturity of more than seven days. Illiquid securities may also include restricted securities not determined by the Adviser to be liquid, non-negotiable time deposits and over-the-counter options.

Except with respect to borrowing, if a percentage or rating restriction on investment or use of assets set forth herein or in the Prospectus is adhered to at the time a transaction is effected, later changes in percentage resulting from any cause other than actions by the Fund will not be considered a violation.

Management of the Fund

Board of Trustees

The management and affairs of the Fund are supervised by the Board of Trustees. The Board of Trustees consists of three individuals. The Trustees are fiduciaries for the Fund's shareholders and are governed by the laws of the State of Delaware in this regard. The Board of Trustees establishes policies for the operation of the Fund and appoints the officers who conduct the daily business of the Fund. The Trustees and the officers of the Trust are listed below with their addresses, present positions with the Trust and principal occupations over at least the last five years.

Name, Address and Age	Position(s) Held with the Trust	Term of Office and Length of Time Served	Number of Portfolios in Trust Overseen by Trustee	Principal Occupation(s) During the Past Five Years	Other Directorships Held by Trustee
<i>Independent Trustees</i>					
Dr. Michael D. Akers 615 E. Michigan St. Milwaukee, WI 53202 Age: 53	Trustee	Indefinite Term; Since August 22, 2001	22	Professor and Chair, Department of Accounting, Marquette University (2004-present); Associate Professor of Accounting, Marquette University (1996-2004).	Independent Trustee, USA MUTUALS (an open-end investment company with two portfolios).
Gary A. Drska 615 E. Michigan St. Milwaukee, WI 53202 Age: 52	Trustee	Indefinite Term; Since August 22, 2001	22	Captain, Midwest Airlines, Inc. (airline company) (2000-present); Director, Flight Standards & Training (July 1990-December 1999).	Independent Trustee, USA MUTUALS (an open-end investment company with two portfolios).

Name, Address and Age	Position(s) Held with the Trust	Term of Office and Length of Time Served	Number of Portfolios in Trust Overseen by Trustee	Principal Occupation(s) During the Past Five Years	Other Directorships Held by Trustee

Kristin M. Cuene 615 E. Michigan St. Milwaukee, WI 53202 Age: 40+	Chief Compliance Officer	Indefinite Term; Since January 23, 2009	N/A	Attorney, Compliance Officer, U.S. Bancorp Fund Services, LLC (2008-Present); Attorney, Investment Management, Quarles & Brady, LLP (2007- 2008); Student, University of Pennsylvania (2004- 2007).	N/A
Rachel A. Spearo 615 E. Michigan St. Milwaukee, WI 53202 Age: 29	Secretary	Indefinite Term; Since November 15, 2005	N/A	Counsel, U.S. Bancorp Fund Services, LLC (September 2004- present).	N/A

* Mr. Neuberger is an “interested person” of the Trust as defined by the 1940 Act. Mr. Neuberger is an interested person of the Trust by virtue of the fact that he is an interested person of the Fund’s principal underwriter, Quasar Distributors, LLC.

Trustee Ownership of Fund Shares

As of February 28, 2009, no Trustee, including the Trustees who are not “interested persons” of the Fund, as that term is defined in the 1940 Act, beneficially owned shares of the Fund. As of February 28, 2009, the Trustees and officers of the Trust, as a group, owned less than 1% of the Fund.

Name of Trustee	Dollar Range of Equity Securities in the Fund (None, \$1-\$10,000, \$10,001-\$50,000, \$50,001-\$100,000, Over \$100,000)	Aggregate Dollar Range of Equity Securities in all Registered Investment Companies Overseen by Trustee in Family of Investment Companies
Dr. Michael D. Akers	None	None
Gary A. Drska	None	None
Joseph C. Neuberger	None	None

Furthermore, neither the Trustees who are not “interested persons” of the Fund, nor members of their immediate family, own securities beneficially, or of record, in the Adviser, the Distributor or any of its affiliates. Accordingly, neither the Trustees who are not “interested persons” of the Fund nor members of their immediate family, have a direct or indirect interest, the value of which exceeds \$120,000, in the Adviser, the Distributor or any of its affiliates.

Control Persons and Principal Shareholders

A principal shareholder is any person who owns of record or beneficially owns 5% or more of the outstanding shares of the Fund. A control person is one who owns beneficially or through controlled companies more than 25% of the voting securities of the Fund or acknowledges the existence of control. As of February 28, 2009, the following shareholders were considered to be principal shareholders of the Fund:

Principal Shareholders of the Fund

Name and Address	% Ownership	Type of Ownership
James P. Burge One Federal Street, 18 th Floor Boston, MA 02110	7.85%	Record
Dana L. Hoffman One Federal Street, 18 th Floor Boston, MA 02110	7.29%	Record
William G. Hirschberg One Federal Street, 18 th Floor Boston, MA 02110	5.44%	Record
Michael S. Edwards One Federal Street, 18 th Floor Boston, MA 02110	5.15%	Record

Board Committees

Audit Committee. The Trust has an Audit Committee, which is comprised of the independent members of the Board of Trustees, Dr. Michael D. Akers and Mr. Gary A. Drska. The Audit Committee reviews financial statements and other audit-related matters for the Fund. The Audit Committee also holds discussions with management and with the Fund's independent auditor concerning the scope of the audit and the auditor's independence. The Audit Committee met once with respect to the Fund during the Fund's prior fiscal year.

Nominating Committee. The Trust has a Nominating Committee, which is comprised of the independent members of the Board of Trustees, Dr. Michael D. Akers and Mr. Gary A. Drska. The Nominating Committee is responsible for seeking and reviewing candidates for consideration as nominees for the position of trustee and meets only as necessary. There are no policies in place regarding nominees recommended by shareholders. The Nominating Committee did not meet with respect to the Fund during the Fund's prior fiscal year.

Valuation Committee. The Trust has a Valuation Committee. The Valuation Committee is responsible for the following: (1) monitoring the valuation of Fund securities and other investments; and (2) as required, when the Board of Trustees is not in session, determining the fair value of illiquid securities and other holdings after consideration of all relevant factors, which determinations are reported to the Board of Trustees. The Valuation Committee is currently comprised of Mr. Neuberger and Mr. John Buckel and Ms. Jennifer Lima, who each serve as an officer of the Trust. The Valuation Committee meets as necessary when a price for a portfolio security is not readily available. The Valuation Committee did not meet with respect to the Fund during the Fund's prior fiscal year.

Trustee Compensation

For their service as trustees for the fiscal year ended November 30, 2008, the independent trustees will receive a retainer fee of \$15,000, \$1,000 per in-person board meeting and \$500 per board meeting via telephone from the Trust for all funds contained in the Trust, as well as reimbursement for expenses incurred in connection with attendance at board meetings. Interested trustees do not receive any compensation for their service as trustees.

Name of Person/Position	Aggregate Compensation From the Fund ¹	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation from Fund and Fund Complex ² Paid to Trustees
Dr. Michael D. Akers, Trustee	\$255	None	None	\$255
Gary A. Drska, Trustee	\$255	None	None	\$255
Joseph C. Neuberger, Trustee	None	None	None	None

¹ Trustees fees and expenses are allocated among the Fund and any other series comprising the Trust.

² There are currently 21 other portfolios comprising the Trust. The term "Fund Complex" applies only to the Fund. For the current fiscal year ending November 30, 2008, Trustees' fees and expenses in the amount of \$35,000 were incurred by the Trust.

Investment Adviser

As stated in the Prospectus, investment advisory services are provided to the Fund by Thunderstorm Mutual Funds LLC, located at One Federal Street, 18th Floor, Boston, MA 02110, pursuant to an Investment Advisory Agreement (the “Advisory Agreement”). The Adviser is 70% owned by Thunderstorm Capital LLC, an investment management firm serving pension funds, high-net-worth individuals, and charitable foundations. John R. Dorfman, the Fund’s portfolio manager, owns 40% of Thunderstorm Capital LLC, and also beneficially owns 30% of the Adviser.

Subject to such policies as the Board of Trustees may determine, the Adviser is ultimately responsible for investment decisions for the Fund. Pursuant to the terms of the Advisory Agreement, the Adviser provides the Fund with such investment advice and supervision as it deems necessary for the proper supervision of the Fund’s investments.

After an initial period of two years, the Advisory Agreement will continue in effect from year to year only if such continuance is specifically approved at least annually by the Board of Trustees or by vote of a majority of the Fund’s outstanding voting securities and by a majority of the trustees who are not parties to the Advisory Agreement or interested persons of any such party, at a meeting called for the purpose of voting on the Advisory Agreement. The Advisory Agreement is terminable without penalty by the Trust on behalf of the Fund upon 60 days’ written notice when authorized either by a majority vote of the Fund’s shareholders or by a vote of a majority of the Board of Trustees, or by the Adviser upon 60 days’ written notice, and will automatically terminate in the event of its “assignment” (as defined in the 1940 Act). The Advisory Agreement provides that the Adviser, under such agreement, shall not be liable for any error of judgment or mistake of law or for any loss arising out of any investment or for any act or omission in the execution of portfolio transactions for the Fund, except for willful misfeasance, bad faith or negligence in the performance of its duties, or by reason of reckless disregard of its obligations and duties thereunder.

In consideration of the services provided by the Adviser pursuant to the Advisory Agreement, the Adviser is entitled to receive from the Fund an investment advisory fee computed daily and paid monthly, based on a rate equal to 1.00% of the Fund’s average daily net assets as specified in the Prospectus. However, the Adviser may voluntarily agree to waive a portion of the fees payable to it on a month-to-month basis, including additional fees above and beyond any contractual agreement the Adviser may have to waive fees and/or reimburse Fund expenses.

The table below sets forth, for the fiscal period ended November 30, 2008, the advisory fees accrued by the Fund under the Advisory Agreement, the amount of the advisory fees and Fund operating expenses waived or reimbursed by the Adviser, and the total advisory fees paid by the Fund to the Adviser under the Advisory Agreement:

Fiscal Period Ended	Advisory Fee	Recoupment/ (Waiver)	Advisory Fee after Waiver
November 30, 2008	\$109,740	\$(48,817)	\$60,923

Fund Expenses. The Fund is responsible for its own operating expenses. The Adviser has agreed to reduce its fees and/or pay expenses of the Fund to ensure that the Total Annual Fund Operating Expenses (excluding interest and tax expenses and Acquired Fund Fees and Expenses) do not exceed 1.99% of the Fund’s average daily net assets. Any reduction in advisory fees or payment of expenses made by the Adviser may be reimbursed by the Fund in subsequent fiscal years if the Adviser so

requests. This reimbursement may be requested if the aggregate amount actually paid by the Fund toward operating expenses for such fiscal year (taking into account the reimbursement) does not exceed the applicable limitation on Fund expenses. The Adviser is permitted to be reimbursed for fee reductions and/or expense payments made in the prior three fiscal years. Any such reimbursement will be reviewed by the Board of Trustees. The Fund must pay its current ordinary operating expenses before the Adviser is entitled to any reimbursement of fees and/or expenses. This agreement may be terminated at any time at the discretion of the Board of Trustees.

Portfolio Manager

As disclosed in the Prospectus, John R. Dorfman is the portfolio manager (the “Portfolio Manager”) for the Fund and is responsible for the day-to-day management of the Fund’s portfolio.

The following provides information regarding accounts managed or co-managed by the Portfolio Manager as of November 30, 2008:

Category of Account	Total Number of Accounts Managed	Total Assets in Accounts Managed	Number of Accounts for which Advisory Fee is Based on Performance	Assets in Accounts for which Advisory Fee is Based on Performance
Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	2	\$15 million	2	\$15 million
Other Accounts	84	\$31 million	0	\$0

The Adviser may also serve as the investment adviser to other accounts that have investment strategies that are similar to that of the Fund, which could create certain conflicts of interest with respect to timing and allocation of transactions. All portfolio transactions will be implemented according to the Adviser’s trade allocation policies. These policies, among other things, ensure that trades are allocated in a manner that fulfills the Adviser’s fiduciary duty to each advisory client and is fair and nondiscriminatory.

As co-owner of the Adviser firm, the Portfolio Manager receives a percentage of the Adviser firm’s profits. The Portfolio Manager is also co-owner of Thunderstorm Capital LLC, the Adviser’s parent company, and is entitled to a percentage of that firm’s profits each year. The Portfolio Manager is also eligible for the 401(k) plan offered by Thunderstorm Capital LLC.

As of November 30, 2008, the Portfolio Manager beneficially owned shares of the Fund as shown below:

Name of Portfolio Manager	Dollar Range of Equity Securities in the Fund (None, \$1-\$10,000, \$10,001-\$50,000, \$50,001-\$100,000, \$100,001-\$500,000, \$500,001-\$1,000,000, Over \$1,000,000)
	Mr. John Dorfman

Service Providers

Pursuant to an Administration Agreement (the “Administration Agreement”), U.S. Bancorp Fund Services, LLC, 615 East Michigan Street, Milwaukee, WI 53202 (the “Administrator”), acts as administrator for the Fund. The Administrator provides certain administrative services to the Fund, including, among other responsibilities; coordinating the negotiation of contracts and fees with, and the monitoring of performance and billing of, the Fund’s independent contractors and agents; preparation for signature by an officer of the Trust of all documents required to be filed for compliance by the Trust and the Fund with applicable laws and regulations excluding those of the securities laws of various states; arranging for the computation of performance data, including NAV and yield; responding to shareholder inquiries; and arranging for the maintenance of books and records of the Fund, and providing, at its own expense, office facilities, equipment and personnel necessary to carry out its duties. In this capacity, the Administrator does not have any responsibility or authority for the management of the Fund, the determination of investment policy or for any matter pertaining to the distribution of Fund shares. Pursuant to the Administration Agreement, for its services, the Administrator receives from the Fund 0.12% of average net assets on the first \$50 million of Fund assets, 0.08% of average net assets on the next \$250 million and 0.05% on the balance, all subject to an annual minimum fee of \$30,000. The Administrator also acts as fund accountant, transfer agent and dividend disbursing agent under separate agreements. During the fiscal period ended November 30, 2008, the Administrator received \$32,381 in fees under the Administration Agreement.

U.S. Bank, N.A.(the “Custodian”), an affiliate of U.S. Bancorp Fund Services, LLC, is the custodian of the assets of the Fund pursuant to a custody agreement between the Custodian and the Trust, whereby the Custodian charges fees on a transactional basis plus out-of-pocket expenses. The Custodian’s address is 1555 N. River Center Drive, Suite 302, Milwaukee, WI 53212. The Custodian does not participate in decisions relating to the purchase and sale of securities by the Fund. The Custodian and its affiliates may participate in revenue sharing arrangements with the service providers of mutual funds.

Legal Counsel

Godfrey & Kahn, S.C., 780 North Water Street, Milwaukee, WI 53202 serves as counsel to the Fund.

Independent Registered Public Accounting Firm

Deloitte & Touche, LLP, 555 East Wells Street, Milwaukee, Wisconsin 53202, serves as the independent registered public accounting firm of the Fund.

Distribution of Fund Shares

The Trust has entered into a Distribution Agreement (the “Distribution Agreement”) with Quasar Distributors, LLC, 615 East Michigan Street, Milwaukee, WI 53202 (“Distributor”), pursuant to which the Distributor acts as the Fund’s principal underwriter, provides certain administration services and promotes and arranges for the sale of the Fund’s shares. The offering of the Fund’s shares is continuous. The Distributor, Administrator and Custodian are affiliated companies. The Distributor is a registered broker-dealer and member of the National Association of Securities Dealers, Inc. (“NASD”).

The Distribution Agreement has an initial term of up to two years and will continue in effect only if such continuance is specifically approved at least annually by the Board of Trustees or by vote of a majority of the Fund’s outstanding voting securities and, in either case, by a majority of the trustees who are not parties to the Distribution Agreement or “interested persons” (as defined in the 1940 Act) of any such party. The Distribution Agreement is terminable without penalty by the Trust on behalf

of the Fund on 60 days' written notice when authorized either by a majority vote of the Fund's shareholders or by vote of a majority of the Board of Trustees, including a majority of the trustees who are not "interested persons" (as defined in the 1940 Act) of the Trust, or by the Distributor on 60 days' written notice, and will automatically terminate in the event of its "assignment" (as defined in the 1940 Act).

Portfolio Transactions and Brokerage

Pursuant to the Advisory Agreement, the Adviser determines which securities are to be purchased and sold by the Fund and which broker-dealers are eligible to execute the Fund's portfolio transactions. Purchases and sales of securities in the over-the-counter ("OTC") market will generally be executed directly with a "market-maker" unless, in the opinion of the Adviser, a better price and execution can otherwise be obtained by using a broker for the transaction.

Purchases of portfolio securities for the Fund will be effected through broker-dealers (including banks) that specialize in the types of securities that the Fund will be holding, unless better executions are available elsewhere. Dealers usually act as principal for their own accounts. Purchases from dealers will include a spread between the bid and the asked price. If the execution and price offered by more than one dealer are comparable, the order may be allocated to a dealer that has provided research or other services as discussed below.

In placing portfolio transactions, the Adviser will use reasonable efforts to choose broker-dealers capable of providing the services necessary to obtain the most favorable price and execution available. The full range and quality of services available will be considered in making these determinations, such as the size of the order, the difficulty of execution, the operational facilities of the firm involved, the firm's risk in positioning a block of securities and other factors. In those instances where it is reasonably determined that more than one broker-dealer can offer the services needed to obtain the most favorable price and execution available, consideration may be given to those broker-dealers that furnish or supply research and statistical information to the Adviser that it may lawfully and appropriately use in its investment advisory capacities, as well as provide other brokerage services in addition to execution services. The Adviser considers such information, which is in addition to and not in lieu of the services required to be performed by it under its Advisory Agreement with the Fund, to be useful in varying degrees, but of indeterminable value.

While it is the Fund's general policy to first seek to obtain the most favorable price and execution available in selecting a broker-dealer to execute portfolio transactions for the Fund, weight is also given to the ability of a broker-dealer to furnish brokerage and research services to the Fund or to the Adviser, even if the specific services are not directly useful to the Fund and may be useful to the Adviser in advising other clients. In negotiating commissions with a broker or evaluating the spread to be paid to a dealer, the Fund may therefore pay a higher commission or spread than would be the case if no weight were given to the furnishing of these supplemental services, provided that the amount of such commission or spread has been determined in good faith by the Adviser to be reasonable in relation to the value of the brokerage and/or research services provided by such broker-dealer. The standard of reasonableness is to be measured in light of the Adviser's overall responsibilities to the Fund.

Investment decisions for the Fund may or may not be made independently from those of other client accounts managed by Thunderstorm Capital. In certain instances, investment decisions will be made similar to other accounts managed. In the case where the Fund uses similar strategies, applicable procedures will be taken to ensure trading allocations will be handled fairly and abide by all appropriate rules and regulations. Nevertheless, it is possible that at times identical securities will be

acceptable for both the Fund and one or more of such client accounts. In such event, the position of the Fund and such client account(s) in the same issuer may vary and the length of time that each may choose to hold its investment in the same issuer may likewise vary. However, to the extent any of these client accounts seek to acquire the same security as the Fund at the same time, the Fund may not be able to acquire as large a position in such security as it desires, or it may have to pay a higher price or obtain a lower yield for such security. Similarly, the Fund may not be able to obtain as high a price for, or as large an execution of, an order to sell any particular security at the same time. If one or more of such client accounts simultaneously purchases or sells the same security that the Fund is purchasing or selling, each day's transactions in such security will be allocated between the Fund and all such client accounts in a manner deemed equitable by the Adviser, taking into account the respective sizes of the accounts and the amount being purchased or sold. It is recognized that in some cases this system could have a detrimental effect on the price or value of the security insofar as the Fund is concerned. In other cases, however, it is believed that the ability of the Fund to participate in volume transactions may produce better executions for the Fund. Notwithstanding the above, the Adviser may execute buy and sell orders for accounts and take action in performance of its duties with respect to any of its accounts that may differ from actions taken with respect to another account, so long as the Adviser shall, to the extent practical, allocate investment opportunities to accounts, including the Fund, over a period of time on a fair and equitable basis and in accordance with applicable law.

The Fund is required to identify any securities of its "regular brokers or dealers" that the Fund has acquired during its most recent fiscal year. The Fund is also required to identify any brokerage transactions during its most recent fiscal year that were directed to a broker because of research services provided, along with the amount of any such transactions and any related commissions paid by the Fund. The Fund did not acquire any securities of its "regular brokers or dealers" during the fiscal year ended November 30, 2008.

The following table shows the Fund's total commissions and transactions paid for research services for the fiscal period ended November 30, 2008:

<u>Commissions</u>	<u>Transactions</u>
\$0	\$0

For the fiscal year ended November 30, 2008, the Fund paid \$11,983 in brokerage commissions.

Portfolio Turnover

Although the Fund generally will not invest for short-term trading purposes, portfolio securities may be sold without regard to the length of time they have been held when, in the opinion of the Adviser, investment considerations warrant such action. Portfolio turnover rate is calculated by dividing (1) the lesser of purchases or sales of portfolio securities for the fiscal year by (2) the monthly average of the value of portfolio securities owned during the fiscal year. A 100% turnover rate would occur if all the securities in the Fund's portfolio, with the exception of securities whose maturities at the time of acquisition were one year or less, were sold and either repurchased or replaced within one year. A high rate of portfolio turnover (100% or more) generally leads to above-average transaction costs and may result in a greater number of taxable transactions, could generate capital gains that must be distributed to shareholders as short-term capital gains taxed at ordinary income rates (currently as high as 35%) and could increase brokerage commission costs. To the extent that the Fund experiences an increase in brokerage commissions due to a higher portfolio turnover rate, the performance of the Fund could be negatively impacted by the increased expenses incurred by the

Fund and may result in a greater number of taxable transactions. The Fund's portfolio turnover rate for the fiscal year ended November 30, 2008 was 22.49%.

Code of Ethics

The Fund, the Adviser and the Distributor have each adopted Codes of Ethics under Rule 17j-1 of the 1940 Act. These Codes permit, subject to certain conditions, personnel of the Adviser and Distributor to invest in securities that may be purchased or held by the Fund.

Proxy Voting Procedures

The Board of Trustees has adopted proxy voting policies and procedures ("Proxy Policies") wherein the Trust has delegated to the Adviser the responsibility for voting proxies relating to portfolio securities held by the Fund as part of its investment advisory services, subject to the supervision and oversight of the Board. The Proxy Voting Policies of the Adviser are attached as Appendix A. The Proxy Voting Policies describe the procedures used by the Adviser to determine how to vote proxies relating to portfolio securities as well as the procedures the Adviser uses when a vote presents a conflict between the interests of the Fund's shareholders and the Adviser. Notwithstanding this delegation of responsibilities, however, the Fund retains the right to vote proxies relating to its portfolio securities. The fundamental purpose of the Proxy Policies is to ensure that each vote will be in a manner that reflects the best interest of the Fund and its shareholders, taking into account the value of the Fund's investments.

The actual voting records relating to portfolio securities during the 12-month period ended June 30th will be available without charge, upon request, by calling toll-free to (800) SEC-0330 or by accessing the Fund's website at www.dorfmanvalue.com.

Anti-Money Laundering Compliance Program

The Trust has established an Anti-Money Laundering Compliance Program (the "Program") as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 ("USA PATRIOT Act") and related anti-money laundering laws and regulations. To ensure compliance with these laws, the Program provides for the development of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program.

Procedures to implement the Program include, but are not limited to, determining that the Distributor and the Fund's transfer agent (the "Transfer Agent") have established proper anti-money laundering procedures, reporting suspicious and/or fraudulent activity and a complete and thorough review of all new account applications. The Fund will not transact business with any person or entity whose identity cannot be adequately verified under the provisions of the USA PATRIOT Act.

As a result of the Program, the Fund may be required to "freeze" the account of a shareholder if the shareholder appears to be involved in suspicious activity or if certain account information matches information on government lists of known terrorists or other suspicious persons, or the Fund may be required to transfer the account or proceeds of the account to a governmental agency.

Portfolio Holdings Information

The Trust, on behalf of the Fund, has adopted portfolio holdings disclosure policies ("Portfolio Holdings Policies") that govern the timing and circumstances of disclosure of portfolio holdings of the Fund. The Adviser has also adopted the Portfolio Holdings Policies. Information about the Fund's portfolio holdings will not be distributed to any third party except in accordance with these

Portfolio Holdings Policies. The Adviser and the Board of Trustees considered the circumstances under which the Fund's portfolio holdings may be disclosed under the Portfolio Holdings Policies. The Adviser and the Board of Trustees also considered actual and potential material conflicts that could arise in such circumstances between the interests of the Fund's shareholders and the interests of the Adviser, Distributor or any other affiliated person of the Fund. After due consideration, the Adviser and the Board of Trustees determined that the Fund has a legitimate business purpose for disclosing portfolio holdings to persons described in the Portfolio Holdings Policies. The Board of Trustees also authorized the Adviser or appointed officers to consider and authorize dissemination of portfolio holdings information to additional parties, after considering the best interests of the shareholders and potential conflicts of interest in making such disclosures.

The Board of Trustees exercises continuing oversight of the disclosure of the Fund's portfolio holdings by (1) overseeing the implementation and enforcement of the Portfolio Holdings Policies, codes of ethics and other relevant policies of the Fund and its service providers by the Trust's Chief Compliance Officer (the "CCO"), (2) by considering reports and recommendations by the CCO concerning any material compliance matters (as defined in Rule 38a-1 under the 1940 Act) and (3) by considering whether to approve any amendment to these Portfolio Holdings Policies. The Board of Trustees reserves the right to amend the Portfolio Holdings Policies at any time without prior notice in its sole discretion.

Disclosure of the Fund's complete holdings is required to be made quarterly within 60 days of the end of each fiscal quarter, in the annual and semi-annual reports to Fund shareholders, and in the quarterly holdings report on Form N-Q. These reports are available, free of charge, on the EDGAR database on the SEC's website at www.sec.gov.

The Adviser may not receive compensation in connection with the disclosure of information about the Fund's portfolio securities. In the event of a conflict between the interests of the Fund and the interests of the Adviser or an affiliated person of the Adviser, the CCO of the Adviser, in consultation with the Trust's CCO, shall make a determination in the best interests of the Fund, and shall report such determination to the Board of Trustees at the end of the calendar quarter in which such determination was made. Any employee of the Adviser who suspects a breach of this obligation must report the matter immediately to the Adviser's CCO or to his or her supervisor.

In addition, material non-public holdings information may be provided without lag as part of the normal investment activities of the Fund to each of the following entities which, by explicit agreement or by virtue of their respective duties to the Fund, are required to maintain the confidentiality of the information disclosed: the Administrator; the Fund's accountant; the Custodian; the Transfer Agent; the Fund's independent auditor; counsel to the Fund or the trustees (current parties are identified in this SAI); broker-dealers (in connection with the purchase or sale of securities or requests for price quotations or bids on one or more securities); and regulatory authorities. Portfolio holdings information not publicly available with the SEC may only be provided to additional third parties, in accordance with the Portfolio Holdings Policies, when the Fund has a legitimate business purpose, and the third party recipient is subject to a confidentiality agreement. Portfolio holdings information may be separately provided to any person, including rating and ranking organizations such as Lipper and Morningstar, at the same time that it is filed with the SEC. Portfolio holdings disclosure may be approved under the Portfolio Holdings Policies by the Trust's CCO, Treasurer or President.

In no event shall the Adviser, its affiliates or employees, or the Fund receive any direct or indirect compensation in connection with the disclosure of information about the Fund's portfolio holdings.

There can be no assurance that the Portfolio Holdings Policies and these procedures will protect the Fund from potential misuse of that information by individuals or entities to which it is disclosed.

Determination of Net Asset Value

The net asset value (“NAV”) of the Fund’s shares will fluctuate and is determined as of the close of trading on the New York Stock Exchange (the “NYSE”) (generally 4:00 p.m. Eastern Time) each business day. The NYSE annually announces the days on which it will not be open for trading. The most recent announcement indicates that it will not be open on the following days: New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. However, the NYSE may close on days not included in that announcement.

The NAV per share is computed by dividing the value of the securities held by the Fund plus any cash or other assets (including interest and dividends accrued but not yet received) minus all liabilities (including accrued expenses) by the total number of shares in the Fund outstanding at such time.

$$\frac{\text{Net Assets}}{\text{Shares Outstanding}} = \text{NAV Per Share}$$

Generally, the Fund’s investments are valued at market value or, in the absence of a market value, at fair value as determined in good faith by the Adviser and the Trust’s Valuation Committee pursuant to procedures approved by or under the direction of the Board of Trustees.

The Fund’s securities, including ADRs, which are traded on securities exchanges are valued at the last sale price on the exchange on which such securities are traded, as of the close of business on the day the securities are being valued or, lacking any reported sales, at the mean between the last available bid and asked price.

Securities that are traded on more than one exchange are valued on the exchange determined by the Adviser to be the primary market. Securities primarily traded on the NASDAQ Stock Market (“NASDAQ”) shall be valued using the NASDAQ Official Closing Price (“NOCP”). If the NOCP is not available, such securities shall be valued at the last sale price on the day of valuation, or if there has been no sale on such day, at the mean between the bid and asked prices. OTC securities that are not traded on NASDAQ shall be valued at the most recent trade price.

Short-term debt obligations with remaining maturities in excess of 60 days are valued at current market prices, as discussed above. Short-term securities with 60 days or less remaining to maturity are, unless conditions indicate otherwise, amortized to maturity based on their cost to the Fund if acquired within 60 days of maturity or, if already held by the Fund on the 60th day, based on the value determined on the 61st day.

An option that is written by the Fund is generally valued at the last sale price or, in the absence of the last sale price, the average of the quoted bid and asked prices. An option that is purchased by the Fund is generally valued at the last sale price or, in the absence of the last sale price, the average of the quoted bid and asked prices. If an options exchange closes after the time at which the Fund’s NAV is calculated, the last sale or last bid and asked prices as of that time will be used to calculate the NAV.

All other assets of the Fund are valued in such manner as the Board of Trustees in good faith deems appropriate to reflect their fair value.

Purchase and Redemption of Fund Shares

Purchase of Shares

Shares of the Fund are sold in a continuous offering and may be purchased on any business day through authorized investment dealers or directly from the Fund. The Fund may authorize one or more brokers to accept purchase orders on the Fund's behalf. Brokers are authorized to designate intermediaries to accept orders on the Fund's behalf. An order is deemed to be received when an authorized broker or agent accepts the order.

Orders received by dealers other than authorized brokers or agents by the close of trading on the NYSE on a business day that are transmitted to the Fund by 4:00 p.m. Eastern time, on that day will be effected at the NAV per share determined as of the close of trading on the NYSE on that day. Otherwise, the orders will be processed at the next determined price. It is the dealer's responsibility to transmit orders so that they will be received by the Fund before 4:00 p.m. Eastern time.

Purchase Requests Must be Received in Good Order

Your share price will be the next NAV per share calculated after the Transfer Agent or your Authorized Intermediary receives your purchase request in good order. "Good order" means that your purchase request includes:

- the name of the Fund;
- the dollar amount of shares to be purchased;
- your account application or investment stub; and
- a check payable to "Dorfman Value Fund."

All purchase requests received in good order before 4:00 p.m. (Eastern time) will be processed on that same day. Purchase requests received after 4:00 p.m. (Eastern time) will receive the next business day's NAV per share.

Shares of the Fund have not been registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses.

Redemption of Shares

To redeem shares, shareholders may send a written request in "good order" to:

Dorfman Value Fund
c/o U.S. Bancorp Fund Services, LLC
P.O. Box 701
Milwaukee, WI 53201-0701
(888) 6-DORFMAN

A redemption request will be deemed in "good order" if it includes:

- the shareholder's name;

- the name of the Fund;
- the account number;
- the share or dollar amount to be redeemed; and
- signatures by all shareholders on the account (with signature(s) guaranteed if applicable).

Redemption proceeds will be sent to the address of record. Signature guarantees can be obtained from banks and securities dealers, *but not from a notary public*. The Fund will not be responsible for interest lost on redemption amounts due to lost or misdirected mail.

A signature guarantee of each owner is required in the following situations:

- if ownership is changed on your account;
- when redemption proceeds are payable or sent to any person, address or bank account not on record;
- written requests to wire redemption proceeds (if not previously authorized on the account);
- when establishing or modifying certain services on an account;
- if a change of address request has been received by the Transfer Agent within the last 15 days; and
- for all written redemptions in excess of \$100,000 from any shareholder account.

In addition to the situations described above, the Fund and the Transfer Agent reserve the right to require a signature guarantee in other instances based on the circumstances relative to the particular situation.

The Fund does not accept signatures authenticated by a notary public.

The Fund and the Transfer Agent have adopted standards for accepting signature guarantees from banks and securities dealers. The Fund may elect in the future to limit eligible signature guarantors to institutions that are members of a signature guarantee program. The Fund and the Transfer Agent reserve the right to amend these standards at any time without notice.

Redemption-in-Kind

The Fund does not intend to redeem shares in any form except cash. The Trust, however, has filed a notice of election under Rule 18f-1 of the 1940 Act that allows the Fund to redeem in-kind redemption requests of a certain amount. Specifically, if the amount you are redeeming during any 90-day period is in excess of the lesser of \$250,000 or 1% of the net assets of the Fund, valued at the beginning of such period, the Fund has the right to redeem your shares by giving you the amount that exceeds \$250,000 or 1% of the net assets of the Fund in securities instead of cash. If the Fund pays your redemption proceeds by a distribution of securities, you could incur brokerage or other charges in converting the securities to cash, and will bear any market risks associated with such securities until they are converted into cash.

Tax Matters

Each series of the Trust is treated as a separate entity for federal income tax purposes. The Fund, as a series of the Trust, intends to qualify and elect to be treated as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986 as amended (the “Code”), provided it complies with all applicable requirements regarding the source of its income, diversification of its assets and timing of distributions. The Fund’s policy is to distribute to its shareholders all of its net investment company taxable income and any net realized long-term capital gains for each fiscal year in a manner that complies with the distribution requirements of the Code, so that the Fund will not be subject to

any federal income or excise taxes based on net income. However, the Fund can give no assurances that its anticipated distributions will be sufficient to eliminate all taxes. If the Fund does not qualify as a regulated investment company, it would be taxed as a corporation and, in such case, it would be more beneficial for a shareholder to directly own the Fund's underlying investments rather than indirectly owning the underlying investments through the Fund. If the Fund fails to distribute (or be deemed to have distributed) by December 31 of each calendar year (i) at least 98% of its ordinary income for such year, (ii) at least 98% of the excess of its realized capital gains over its realized capital losses for the 12-month period ending on October 31 during such year and (iii) any amounts from the prior calendar year that were not distributed and on which the Fund paid no federal income tax, the Fund will be subject to a 4% excise tax.

Net investment income generally consists of interest, dividends and short-term capital gains, less expenses. Net realized capital gains for a fiscal period are computed by taking into account any capital loss carryforward of the Fund.

Distributions of net investment income are taxable to shareholders as ordinary income. For individual shareholders, a portion of the distributions paid by the Fund may consist of qualified dividends eligible for taxation at the rate applicable to long-term capital gains to the extent the Fund designates the amount distributed as a qualified dividend and the shareholder meets certain holding period requirements with respect to his or her Fund shares. In the case of corporate shareholders, a portion of the distributions may qualify for the intercorporate dividends-received deduction to the extent the Fund designates the amount distributed as eligible for deduction and the shareholder meets certain holding period requirements with respect to its Fund shares. The aggregate amount so designated to either individuals or corporate shareholders cannot, however, exceed the aggregate amount of such dividends received by the Fund for its taxable year. In view of the Fund's investment policies, it is expected that part of the distributions by the Fund may be eligible for the qualified dividend income treatment for individual shareholders and the dividends-received deduction for corporate shareholders.

Any long-term capital gain distributions are taxable to shareholders as long-term capital gains regardless of the length of time shares have been held. Capital gains distributions are not eligible for the qualified dividend income treatment or the dividends-received deduction referred to in the previous paragraph.

Distributions of any net investment income and net realized capital gains will be taxable as described above, whether received in shares or in cash. Shareholders who choose to receive distributions in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the NAV of a share on the reinvestment date. Distributions are generally taxable when received. However, distributions declared in October, November or December to shareholders of record on a date in such a month and paid the following January are taxable as if received on December 31. Distributions are includable in alternative minimum taxable income in computing a shareholder's liability for the alternative minimum tax.

A redemption or exchange of Fund shares may result in recognition of a taxable gain or loss. Any loss realized upon a redemption of shares within six months from the date of their purchase will be treated as a long-term capital loss to the extent of any amounts treated as distributions of long-term capital gains received on those shares. Any loss realized upon a redemption may be disallowed under certain wash sale rules to the extent shares of the Fund are purchased (through reinvestment of distributions or otherwise) within 30 days before or after the redemption.

Except in the case of certain exempt shareholders, if a shareholder does not furnish the Fund with its correct Taxpayer Identification Number and certain certifications or the Fund receives notification from the Internal Revenue Service requiring back-up withholding, the Fund is required by federal law to withhold federal income tax from the shareholder's distributions and redemption proceeds currently at a rate of 28% for U.S. residents. Generally, tax-exempt dividends are not subject to back-up withholding. Interest and dividends payable on certain foreign investments may be subject to foreign withholding taxes.

Foreign taxpayers (including nonresident aliens) are generally subject to a flat withholding rate, currently 30% on U.S. source income. This withholding rate may be lower under the terms of a tax convention. Certain distributions of short-term capital gains and qualified interest income of the Fund will not be subject to such withholding for tax years beginning prior to 2008.

This discussion and the related discussion in the Prospectus have been prepared by Fund management, and counsel to the Fund has expressed no opinion in respect thereof.

This section is not intended to be a full discussion of federal tax laws and the effect of such laws on you. There may be other federal, state, foreign or local tax considerations to a particular investor. You are urged to consult your own tax adviser.

Distributions

The Fund will receive income in the form of dividends and interest earned on its investments in securities. This income, less the expenses incurred in its operations, is the Fund's net investment income, substantially all of which will be distributed to the Fund's shareholders.

The amount of the Fund's distributions is dependent upon the amount of net investment income received by the Fund from its portfolio holdings, is not guaranteed and is subject to the discretion of the Board of Trustees. The Fund does not pay "interest" or guarantee any fixed rate of return on an investment in its shares.

The Fund also may derive capital gains or losses in connection with sales or other dispositions of its portfolio securities. Any net gain the Fund may realize from transactions involving investments held less than the period required for long-term capital gain or loss recognition or otherwise producing short-term capital gains and losses (taking into account any carryover of capital losses from the eight previous taxable years), although a distribution from capital gains, will be distributed to shareholders with and as a part of the distributions of net investment income giving rise to ordinary income. If during any year the Fund realizes a net gain on transactions involving investments held for the period required for long-term capital gain or loss recognition or otherwise producing long-term capital gains and losses, the Fund will have a net long-term capital gain. After deduction of the amount of any net short-term capital loss, the balance (to the extent not offset by any capital losses carried over from the eight previous taxable years) will be distributed and treated as long-term capital gains in the hands of the shareholders regardless of the length of time the Fund's shares may have been held by the shareholders. For more information concerning applicable capital gains tax rates, see your tax adviser.

Any distribution paid by the Fund reduces the Fund's NAV per share on the date paid by the amount of the distribution per share. Accordingly, a distribution paid shortly after a purchase of shares by a shareholder would represent, in substance, a partial return of capital (to the extent it is paid on the shares so purchased), even though it would be subject to income taxes.

Distributions will be made in the form of additional shares of the Fund unless the shareholder has otherwise indicated. Investors have the right to change their elections with respect to the reinvestment of distributions by notifying the Transfer Agent in writing. However, any such change will be effective only as to distributions for which the record date is five or more business days after the Transfer Agent has received the written request.

APPENDIX A -- PROXY VOTING POLICIES

Thunderstorm Mutual Funds, LLC

PROXY VOTING POLICY AND PROCEDURES

Adopted August 13, 2007, Amended November 16, 2007

Proxy voting is an important right of shareholders. Dorfman Value Fund will exercise care and diligence to ensure that proxies are voted in a proper and timely manner.

We recognize that not all shareholders have identical interests. We will vote proxies in a way that we believe will be in the interest of the overwhelming majority of shareholders.

We will keep a record of each proxy received, and maintain a log showing how each proxy was voted. If a shareholder wants to know how we voted a particular proxy, we will provide that information. In addition, the entire log is available to shareholders on request.

As a general rule, Dorfman Value Fund invests in the stock of companies with management whose ability and candor we respect. That framework dictates some of our specific proxy voting guidelines.

Generally, Dorfman Value Fund will vote in favor of routine corporate housekeeping proposals, including election of directors (where no corporate governance issues are involved), selection of auditors, and increases in or reclassification of common stock.

Generally, Dorfman Value Fund will vote against proposals that make it more difficult to replace members of the issuer's board of directors, cause management to be overrepresented on the board, introduce cumulative voting, introduce unequal voting rights, create supermajority voting, or create "poison pill" plans.

For other proposals, Dorfman Value Fund will determine whether a proposal is in the best interests of its shareholders and may take into account the following factors among others:

- Whether the proposal was recommended by management and the portfolio manager's opinion of management;
- Whether the proposal acts to entrench existing management; and
- Whether the proposal fairly compensates management for past and future performance. We believe that incentive pay for managers should be reasonable and not excessive, and should be tied to the accomplishment of specific and measurable corporate goals.
